GEN. GRANT'S ARMY.

Retirement of the Rebels to their Main Line.

They Occupy a Strong Position.

Advance of the Second Corps to the Boynton Road.

What a Rebel Shell might have Done Had it Exploded.

HEADQUARTERS OF THE ARMY OF THE POTOMAC,
SUNDAY, October 2, 1864—Evening.

No fighting has occurred on this line to-day. The rebels fell back this morning to their main line of works, which runs from the lead works to the South-side road, or near it.

This position of the rebels is a very strong one, and cannot easily be carried.

A division of the Second Corps advanced to the Boynton road, over which the enemy wagon their supplies to Petersburgh. Two lines of works were found unoccupied, only a skirmish line opposing the advance, and falling back as our troops went forward.

Near the Boynton road a very formidable line of works was found, behind which the rebels were posted in heavy force. It was not deemed advisable to attack, and our men fell back and occupy a safe position. They lost a few wounded in the advance.

Our loss on Friday was greater than at first stated. The total in killed, wounded and prisoners will foot up not far from 2,000—more than half of whom were taken prisoners.

This occurred in consequence of a gap being left between a part of the Fifth and Ninth Corps, through which the enemy charged, and flanked the Second Division of the Ninth Corps.

Among the casualties are Lieut.-Col. OTIS, commanding the First Brigade of the Division of Gen. AYRES, wounded in the face, but not seriously.

Col. Zim, of the Eighty-fourth Pennsylvania Volunteers, wounded in the leg.

Capt. Snyder, 120th New York, wounded.

Capt. Fish, of the 8th Infantry, wounded seriously in the head.

A shell from one of the rebel batteries grazed Gen. MEAD's boot-leg to-day, took a piece from the tail of Gen. HUMPHREY's horse, and entered the ground between Generals BARTLETT and GRIFFEN. Fortunately it did not explode, else I should probably have had to chronicle a loss which this army could ill afford just now.

HEADQUARTERS, October 3—6 A. M.

Some firing occured during last night, but without any important results.

Particulars of Late Movements—Operations Southwest of Petersburgh—Our Forces Approaching the Southside Railroad.

From Our Special Correspondent.

HEADQUARTERS FIFTH CORPS,
WELDON RAILROAD, Monday, Oct. 3, 1864.

The events of the past three days, although not furnishing much scope for letter-writing, yet were of considerable interest, inasmuch as our line was still further extended toward the left, and a position of some importance gained.

On Friday morning, about 8 o'clock, the First and Second Divisions of the Fifth Corps, with Col. HOFFMAN's brigade of the Third Division, moved out on the road leading toward Poplar Tree Church, with the intention of striking the Southside Railroad. Gen. CRAWFORD, with the remainder of his division, and some new regiments, was ordered to hold the left flank and old line of the Fifth Corps, having Gen. FERRERO's division of colored troops from the Ninth Corps detailed to his command temporarily The reserve batteries were kept in position.

When Gen. WARREN reached the Church and was establishing his line, Gen. PARKE of the Ninth Corps came up with the two remaining divisions of his corps, and forming on WARREN's left, struck the Squirrel Level Road, near Peeble's farm, finding an entrenched line of the enemy, and a small and unfinished work, carrying 6 guns, but from some unaccountable reason failed to draw any fire from them.

Everything being now ready, the lines were ordered to advance, and after a brief defense on the part of the enemy the works were carried by two brigades of Gen. GRIFFIN's division, capturing one gun and a few prisoners, consisting of dismounted cavalry and some infantry from HEATH's division.

This being accomplished, the line was then thrown forward, Gen. PARKE on the left, with WILCOX's division joining the Fifth Corps, and POTTER's division the extreme left. This line captured by these manœuvres was very feebly defended and incomplete. Our loss was trifling. Among the casualties were Col. WELCH, Sixteenth Michigan, killed, and Lieut.-Col. OTIS, One-hundred-and-fortieth N. Y. (commanding 3d Brigade, 2d Division) wounded, and Lieut.-Col. EDWARDS was wounded.

Matters thus remained until near dark, when the enemy made a flank movement, and succeeded in uncovering our left and doubling it up, and capturing a few hundred prisoners. At this critical juncture, some troops from the Fifth Corps were ordered up, and checked the further advance of the enemy. These two brigades were sent round by Gen. WARREN in the very nick of time. The rebels failing to make any very serious impression upon our left, sullenly retreated, and our troops busied themselves all night in throwing up intrenchements. Thus closed the first day's operations.

At daylight Saturday morning the enemy again assumed the offensive, and made an assault; having, however, a very small force. No doubt seems to exist that the enemy's left had been heavily reinforced to meet Gen. BUTLER's determined attack upon, and successful operations against, the forts below Richmond. The rain that commenced to fall Saturday forenoon soon made it impossible for either party to make any decisive movement. But at a little after 8 o'clock A. M., the enemy made another light attack upon Gen. AYER's line or front, but finding our troops strongly entrenched, fell back.

During all of Saturday but little artillery firing occurred. Toward noon the enemy, seemingly determined to pierce our line somewhere, suddenly struck out to the left of the Weldon Railroad, and fell foul of Gen. CRAWFORD's front, when considerable picket firing ensued, and the rebels ultimately contented themselves with quietly reëstablishing their old line. In fact it appeared that but very few troops were on this side of the Appotomax, and our prisoners confirm this view, the whole of the rebel army that could possibly be spared, having been sent to Richmond. The weather was the only thing that prevented our army being entirely successful. But few casualties occurred during Saturday. Gen. MOTT's division, of the Second corps, arrived at 5 P. M., and were assigened to the extrem left of Gen. PARKE's line, and thus relieved the troops from the Fifth corps.

Yesterday morning an advance was ordered, but was not carried out for some reason. The enemy had some guns in a light work near the Davis House, west of the Halifax road, and had established his picket in front. Just about noon Gen MOTT received orders to make a reconnoissance up the Boynton plankroad, and moving out quickly discovered, at the junction of the telegraph road with the plank, a strong work of the enemy's and a line of entrenchments. Finding nothing of any importance could be accomplished, he quietly retired.

We still continue to hold the line of country thus wrested from the enemy, and are at least three miles nearer the Southside Railroad. In order to complete our lines, Gen. BRAGG's brigade, of Gen. CRAWFORD's division, was ordered at daylight on Saturday to the right of the railroad, (Weldon,) and established the connection with the main line, and at the same time to hold the Vaugh road. As our line now stands, we have extended or swung round our left toward the Southside road, although that road was not reached.

Gen. MEADE was at the front each day, consulting with Gens. WARREN and PARKE, and his headquarters have been moved up further to the left, and are now situated about a mile from the "Yellow-house," or Gen. WARREN's headquarters. Gen. MEADE had a narrow escape yesterday afternoon. It appears that while consulting with Gen. WARREN, near the Pegram House, in the immediate rear of the Fifth Corps, and surrounded by his staff, a shell passed between him and one of his aids, just grazing the Commanding General's boot. The missile afterward richotted, striking Gen. HUMPHREY's horse, and touching some others, failing, however, to explode.

FROM CITY POINT.

Late Movements—Their Success—The Shelling of Petersburgh—Depreciation of Rebel Currency, &c.

From Our Own Correspondent.

CITY POINT, Va., Sunday, Oct. 2, 1864.

I have nothing to add since my communication of Friday, respecting the doings on our left, except that the enemy yesterday made an ineffectual attempt to dislodge us. The movement on Friday resolves itself simply into a partially successful one on our part. We carried one line of defences, but failed in the second, and, as we hold firmly what we got in the first, we have taken one more effective step toward the grand object we have in view.

Many people may be imagining that nothing can insure us the possession of Petersburgh or Richmond without submitting both those cities to a long and furious bombardment; but those who are in the best position to understand the condition and necessities of those two cities know very differently. A vital blow can and most probably will be dealt to both of them from a comparatively long distance off. The possession or destruction of the Southside and Danville Railroads, as effectually brings those proud strongholds to our mercy, as if we reduced every building in them to ashes; and every day is now seeing us draw nearer to the desired object. Rebel newspapers and rebel sympathizers in the North may say what they like, to put the best face upon the matter, but nobody knows better than the inhabitants of Richmond and Petersburgh, the utterly hopeless condition in which they already find themselves.

I had the pleasure, last evening, of meeting three highly intelligent gentlemen who left what one of them called "that hell, Petersburgh," on Friday last; and the description they give of the suffering and desolation existing there surpasses even what I had been led to expect, from all previous reading and description. Who and what these gentlemen are, or how they managed to escape from their persecutors, I shall, of course, not mention; not only because it might be the means of preventing others from using the same ingenious devices, but because one or two of them have left anxious families behind them, and, in case of identity, it would not be the first time that the chivalry would make innocent women and children suffer for their dear ones escaping from oppression and butchery.

The testimony of these gentlemen may be simply summed up as follows: The constant shelling to which Petersburgh has of late been subjected, has done it an enormous deal of damage, in spite of all rebel efforts to hide the fact. All over the city the effect has been felt, in houses shattered in every direction. Every man, woman and child who *could*, has moved away from the city, and principally gone to Richmond, thereby adding very much to the weakness, want and distress already existing in the latter place. The price of existence, even at the most ordinary rate, is almost fabulous. A week ago one of my informants had a breakfast with two friends, which cost him ninety-five dollars; the costliest part of the entertainment being comprised in two spare chickens. He fully expected, he said, that his audacious indulgence would bring him in a bill of fifty dollars, but that ninety-five dollars astonished even his accustomed nerves. Fuel is put almost entirely out of the reach of the people. Their chief supply used to come through portions of Dinwiddie and Prince George counties, but as our army is now scattered about there, the supply is completely cut off. The people are in the utmost state of despondency, and look upon our possession of the place as a matter now quite inevitable. Indeed, many of them would wish for nothing better, if they could only vent the real feeling of their hearts.

Our informants gave us some fine illustrations of the freedom of opinion existing in Dixie, and of the wholesale manner in which they get up their armies. One of them had paid $2,200 for a substitute, and obtained his properly attested papers. Not long after, another draft was made, and, on presenting his vouchers, they were taken away from him and never returned, by which dishonest act he was forced into the army. This gentleman, too, can in no respect be considered one of their people. He is, and always was a loyal Pennsylvanian, and is now joyfully returning to his family and friends, who will be not a little entertained by the recital of his wonderful adventures and escapes.

When the people of Virginia were called upon to express their "opinion" as to the glorious doctrine of secession, and every man was ostensibly called upon to give that opinion just as his conscience dictated, *one* old man of Dinwiddie was courageous or innocent enough to think that he was still in the land of free white men, and voted *against* secession. For this heinous offence he was put six months in prison, and afterward into the trenches, whence he recently managed to escape. The gentleman who was relating this to me said that he himself barely escaped a similar fate by mere accident. On approaching the polling stand, and finding himself among a crowd of people, he heard somebody ask the polling clerk how many votes he had seen against secession. "None yet," replied the fellow, with a grim laugh, "and here is something for those who try it on"—holding up a thick hickory bludgeon. The listener thought it best, under the circumstances, to pocket his loyalty, and come away with an uncracked skull. To give an idea of the terrible restraint existing among all classes of people, and the dread in which each man stands of having his opinions even suspected by his neighbor, it was painful to hear two of these parties confess that, although they knew each other, and suspected what was passing in each other's minds, neither one would have dared to make his intention of flight known; and it was with joy they met as freemen within our lines. Can anything give a greater idea of the horribly debasing character of the oppression under which these people are groaning, than to find every man compelled to see or suspect in his mutual friend an enemy ready to betray him?

Simultaneously with the extraordinary depreciation in the rebel currency, which has brought their paper down to so low a standard, that it can scarcely be said to have any appreciable value to gold. Greenbacks of the United States are being hoarded up, in spite of all efforts to prevent it. One of these gentlemen, in arranging for his escape, tried to convert al the little he still had left ($900 in Confederate notes), into greenbacks. He could not get $100 of our greenbacks, or, indeed, any greenbacks at all from the hoarders, but succeeded at last in converting his $900 into $30 of gold!

These gentlemen all agree in the fact that both Richmond and Petersburgh are very strongly fortified, and will require a large expenditure of life to take them by storm; but they are equally confident that they must ultimately be reduced though they were ten times more strongly fortified. They declare that disaffection runs through every branch of the rebel army; that it has vastly increased since SHERMAN took Atlanta and Georgia has shown such evident signs of kicking out of the traces; and that they are merely kept down by lying promises to the credulous, and by the almost impossibility of organizing anything like open resistance under the masterly hold that the leaders have upon them. As an instance of how they dread the propagandism of Union thoughts among the masses, they are in the habit of mutilating the newspapers that come among them. When Lieut.-Gen. GRANT's famous recent order came out, promising the rebel soldiers who may come into our lines safety, free transportation and employment, every paper that could be found with that order had the latter cut out by the authorities. How long this unequal contest can be continued between Truth and false pretences, it requires no prophet to foretell.

If these are not the equinoctial storms upon us at last, they are something worse. The very dirtiest of what sailors call dirty weather has visited us during the last 24 hours, and threatens to continue. It were to be wished that it had kept off for a little while longer, as it will be making uncomfortable roads for us, but that is no new thing either to the brave men who have this business in hand or to the unconquerable Commander who leads them. Let the sun shine ever so brightly, or let it rain pitchforks as well as rebel shells, depend upon it that the month of October will not pass away without giving the nation as much cause for gratitude and joy as its glorious forerunner. J. R. HAMILTON.

THE WAR IN MISSOURI.

ST. LOUIS, Monday, Oct. 3.

The latest reliable accounts state that PRICE is moving on Rolla in three columns, the right under SHELBY and MARMADUKE, the centre under himself, and the left under COOPER, the latter being mainly composed of half-breed Indians.

About 500 rebels entered Union, the county seat of Franklin County, on Saturday, and captured about one hundred of the county militia. Washington had a garrison of six hundred men, under Col. GALE, who evucuated the place on the approach of the rebels, and took his men and stores across the Missouri River.

Information from Jefferson City to last night reports all safe.

The depot at Jacksonville, on the North Missouri Railroad, was burned by guerrillas this morning.

Nothing is yet heard from Gen. EWING.

All the fortifications around St. Louis were manned to-day, as a precautionary measure.

DETAILS OF THE INVASION.

From Our Own Correspondent.

ST. LOUIS, Saturday, Oct. 1, 1864.

Missouri is invaded. PRICE has returned to the State whence he fled so precipitately and ridiculously three years ago, and he brings many of his former command to help him to remain. His coming was contemplated and decided upon nearly a year ago, but as the time drew nigh for him to fulfill his promise to his clamorous soldiery, he would fain have found a valid excuse for not keeping it, for he knew that ROSECRANS, who defeated him so disastrously at Corinth, was in command, and he had serious misgivings as to the final result of his expedition. His movements in Arkansas were all made during the summer with special reference to the invasion of this State, and the more direct and aggressive of these were pointed out in my communication of the 23d ult.

ESTIMATE OF THE REBEL FORCE.

PRICE had about 30,000 men in Arkansas, but kept not more than half that number together, the other half being scattered for post and foraging duty. For several months past he has been sending considerable numbers of his men into this State, and these have operated with the native guerrillas in plundering and stealing horses, hundreds of which have been run down to the Arkansas border, especially during the past eight or ten weeks. The invading force is mounted almost entirely, and numbers between 12,000 and 15,000 effective men. Whatever infantry PRICE has, he can mount at short notice, and he is abundantly provided with transportation, the greater part of which he captured from STEELE. His men are not such tatterdemalions as some pretend to believe; they are veterans who have fought under him since Pea Ridge, and they are well armed, well equipped and desperate. The desperation of their cause inflames them, and joined by the gangs of blood-stained guerrillas, whose atrocities make the blood run chill to contemplate, they are ready to take anything from the hands of fate.

DESIGN OF THE INVADERS.

The first demonstration of the enemy was made at Pilot Knob, on Monday last, but the movements there were anticipated by Brig.-Gen. EWING's occupation, which was ordered on Sunday. He reached the Knob with a brigade of Maj.-Gen. A. J. SMITH's command, a portion only of which is at Jefferson's Barracks, and made such disposition of his force, augmented by the garrisons at that and other minor posts, called in for the purpose, as not only to check, but repulse the enemy, boldly advancing along the Iron Mountain Railroad in this direction. The struggle took place near Ironton, where a square fort, constructed by Gen. DAVIDSON for a mere temporary use, commanded the only practicable passage for the rebels in their contemplated course. Gen. EWING drew his forces inside the works, and awaited developments. The enemy appeared, and drew up in line, showing vastly superior numbers, and MARMADUKE ordered the fort to be charged. EWING waited until his foe came within easy range, when he opened with shell, grape, cannister and musketry. The rebels recoiled and rallied again, but faltered on the second charge, and broke, leaving numbers of killed and wounded on the field. Some estimate their loss at 1,500, but there is nothing more reliable than the *opinion* of officers who witnessed the fight to substantiate the statement, for night closed upon the scene; and, owing to the fact that the Rebels had obtained a position on Sheppard Mountain which commanded the fort, Gen. EWING evacuated during the night and took his command in a northwesterly direction, to effect, if possible, a junction with Gen. MCNEIL at Rolla. Gen. EWING is still trying to reach that post, and has not been heard from for forty-eight hours past. He was hotly pursued by the enemy at last accounts, but his command was safe and in fine condition.

The design of the enemy is to move as compactly as possible toward Jefferson City, and hold it. His movements thus far indicate this, but without imparting "contraband news," I may say that if the new troops raised for the emergency prove true and brave, he will be badly foiled. There is little doubt that PRICE's plans look more to political than to military results, for he is not such an ass as to believe for a moment that he can remain in Missouri. If he can capture the capital, and set up, even for a time, REYNOLDS as Governor. and assist to carry the elections by spreading terror and alarm, and then make good his escape, whether the devil takes the hindmost or not, it is all he can expect or hope for, and this brings me to the

PRESENT SITUATION.

The telegraph always anticipates the mail, and has informed you of the damage done by the rebels along the Iron Mountain and that portion of the Pacific Railroad, including the southern branch of the latter, which branches downward at Pacific Station, Franklin County, and it is, therefore, unnecessary to repeat the matter here; but their attitude is that of a three-pronged fork with the handle toward Arkansas, their three columns heading, respectively, for Springfield, Rolla and Jefferson City. The probability is that the former place is already captured, as it was evacuated two or three days since, thus leaving the Southwest completely in the rebels' hands. Rolla and Jefferson City are still intact, although with the latter we are at the present time cut off telegraphically.

SUNDAY, Oct. 2.

Nothing has yet been heard from EWING, but it is hoped that he has joined MCNEIL at Rolla, in which case he may be considered safe and in for another fight. Later intelligence confirms the report of the rebel loss at Ironton. The fort was situated in Arcadia Valley and mounted twelve guns—four twenty-fours, four thirty-twos and four six-pound Parrotts, together with two six-pound Parrotts outside, supported by infantry. The rebels could have shelled the fort out from one of the hillsides, for which, however, they would have had to contend, but they felt sure of their prize owing to the unmilitary situation of the work, and MARMADUKE ordered it to be charged. The assailants were literally mowed down by the score, and the prisoners captured. Some of our own officers who have since rode over the field, set down the rebel loss at not less than two thousand killed and wounded.

Jefferson City is now the objective point for the rebels. It is garrisoned by the commands of Gens. BROWN and FISK, but not properly defended. There is but one defensible point in the place, and that is on the farm of Judge MINER, which commands the country for a radius of five or six miles. It is highly probable that this salient point has been seized and improved, for it must be quite as well known to the commanders there as to us here, that CABELL's brigade has a roving commission to kill, plunder and destroy in that region, for which it headed after the death of CABELL in the Arcadia Valley. The brigade numbers about 2,500 effective men, well armed and mounted, with a fine battery of artillery, and its sole object is to strike terror and spread alarm in order to cover the intentions and operations of the main force in the rear. Of this nothing is yet known to the news gatherers, but the military are bending every effort to thwart its designs, and feel confident of success. Reinforcements are arriving by every train from Illinois, Indiana and other States, and Maj.-Gen. A. G. SMITH is in the field active as an athlete. Encouraging reports are coming in, but the military are a sealed book which none may yet read. The public grow apprehensive of dangers on the report that MAGRUDER is in Arkansas with 20,000 to operate against STEELE, who will, if this is certain, be compelled to recall MOWER, now in the rear of PRICE, and upon whom our chief hope for speedy success at present leans. I cannot close these hasty paragraphs without again alluding to the splendid defence made by EWING in the Arcadia Valley. He was attacked by overwheming numbers, yet he kept his little command compact, and by coolness and invincible courage repelled them with damaging effect. He stood upon the parapet of the fort, which was not casemated during the entire action, and amid a storm of bullets directed every fire upon the enemy. The latter had 6 and 12 pound pieces, and might have saved their heavy loss by dragging their guns up one of the hill sides which commanded the fort.

An immense amount of property will be destroyed, great loss of life will follow in the course of the rebels, but these consequences will not be attributed to mere "military necessity," but to the "rule or ruin" spirit which has actuated them from the first, and which prompted their present reckless and destructive expedition. The War in the Southwest.

NASHVILLE, Tuesday, Oct. 4.

On Saturday, Gen. BUFORD, with a part of FORREST's command, including all his artillery, attacked Athens, Ala., shelling the place for two hours, and demanded its surrender from the Commandant, Col. WADE, of the Seventy-third Indiana, who refused. BUFORD soon after retired.

The fears of an attack on Columbia were unfounded, FORREST having gone in the direction of Florence, was then below Mount Pleasant.

A large force of mechanics and laborers are engaged in repairing the railroad and telegraph. It is believed that railroad communication will be open to Pulaski during the week.

Telegrams from Athens announce that numerous guerrilla bands are operating near the city, from four to eight miles on the several roads. Last week two or three commissary and forage trains were captured, the wagons disabled and the mules and drivers carried off. One of these bands is commanded by DUVAL MCNAIRY.

A party just from Chattanooga report that a demand for the surrender of Dalton, Ga., was made yesterday by a body of rebels, claiming to be FORREST's force. No further particulars have been received.

The telegraph is working to Chattanooga and Columbia.

Maj.-Gen. THOMAS and Brig.-Gen. T. F. MEAGHER arrived here last night.

Gen. Hooker in Command of the Northern Department.

CINCINNATI, Monday, Oct. 3.

Maj.-Gen. HOOKER has assumed command of the Northern Department, with headquarters at Cincinnati.

Maj.-Gen. HEINTZLEMAN is ordered to report at Wheeling.

Capture of Two Freight Trains.

LOUISVILLE, Tuesday, Oct. 4.

A band of 35 guerrillas captured two upward-bound freight trains on the Nashville Railroad, at 10 o'clock last night, between Rockland Station and Fountain Head. They burned nineteen cars, but they contained no stores. To-day the trains will be slightly disarranged by the disaster.

Collision at Sea.

PORTLAND, Tuesday, Oct. 4.

The steamer *Chesapeake*, off Eden's Neck, Long Island Sound, Saturday night, at 9½ o'clock, ran down the top-sail schooner *Martha Hall*, of St. George, Maine, from Providence for New-York, which immediately filled. She had no cargo. Her Captain and crew, four in all, have been brough here.

TWO DAYS LATER FROM EUROPE

Arrival of the China and Etna at this Port.

Numerous Failures in the Cotton Trade.

FINANCIAL AND COMMERCIAL INTELLIGENCE.

The Royal mail steamer *China*, which left Liverpool at 2 o'clock on the afternoon of the 24th, and Queenstown on the 25th of September, arrived here at 1 o'clock this morning.

The steamer *New-York* arrived at Southampton on the morning of the 22d September, and the *Louisiana* reached Queenstown on the evening of the same day.

The *Edinburgh* and the *Kangaroo* arrived at Liverpool early on the morning of the 23d ult.

The steamship *Etna*, from Liverpool Sept. 21, arrived at 2:30 o'clock this morning, but her advices are anticipated by the *China*.

AMERICAN TOPICS.

The English journals have nothing new to advance upon American affairs.

The New-York correspondent of the London *Times*, writing on the 9th of September, says that the Republican party, seeing the danger which menaces it from divided councils, is rapidly closing up its ranks, and in contrasting the respective claims of LINCOLN and MCCLELLAN, he contends that between them there is little to choose on public grounds. The one would restore the Union by fire, sword, abolition of Slavery and extermination of the white people. The other would restore it by offering the South everything it claims or can claim except independence. That offer failing to conciliate the people or their leaders, he would be in the same predicament as Mr. LINCOLN, and compelled either to make peace with an enemy, whom he had vainly striven to coerce or persuade, or carry on the war till one party or the other was broken or exhausted. The writer also contends that the great battle of the Georgia campaign has yet to be fought.

The *Times'* correspondent at Richmond, writing Aug. 13, says there never was a moment when more confidence as to the results of the war was entertained throughout "Secessia."

Several of the English journals severely criticise and censure Mr. G. A. SALA for the tenor of his correspondence from America to the London *Daily Telegraph*.

The New-York correspondent of the *Daily News* says that "whoever may be elected in November, you have nothing to look for but war. There is no Peace party that will weigh in the contest, and unless some great change comes over the public mind, you will see no Administration that will not dare to cease fighting as long as the Confederacy is in existence."

GREAT BRITAIN.

Great depression continued to prevail in commercial circles and much distrust evinced. The heavy losses which which were being incurred by the serious fall in cotton, was the main cause of the alarm. One Liverpool house, WALKER, COLESWORTH & Co., and also Messrs. OELRICHS & Co., of London had suspended payment for large amounts, both firms being engaged in cotton operations. It is stated that the liabilities of Mr. DOSS of Havre—in the cotton trade—reach no less than £40,000 sterling. The failure of the Leeds Banking Co. was proving a very bad affair, and had led to the stoppage of several firms, including Messrs. SAALFELD BROTHERS, Mr. JOHN ABRAHAM, of London, and Mr. J. W. MARSDEN, ironmaster, Leeds. The latter had absconded, with a view of getting to New-York, but efforts were being made to stop him.

It was feared further failures would take place.

FRANCE.

The weekly returns of the Bank of France show an increase in the cash on hand of 3¼ million francs.

The French journals confirm the Statement that a convention had been concluded between France and Italy, as already published, and it is said the ratifications were exchanged on the 20th of September. Florence is to be the Italian capital.

The *Constitutionnel*, in a semi-official article, gives the following as the chief article of the convention: "Italy engages himself to respect the actual territory of the Pope, and to prevent by force any attack that may be made on it from abroad. France is to withdraw her troops in proportion to the organization of the Pontifical army. The evacuation of Rome to be accomplished in two years. The Ponfifical army to be of a sufficient strength to maintain the Papal authority and tranquility, both in the interior and on the frontiers of the Papal States. The Italian Government to raise no objection to either the elements or number of men comprising that army, provided it always does not degenerate into a means of attack against Italy. Finally, Italy undertakes the liquidation of a share of the Roman debt proportioned to the extent of those States of the Church now annexed to the kingdom of Italy."

The *Moniteur* subsequently reprinted the article from the *Constitutionnel*, with some correspondence bearing on the subject.

The Paris Bourse, on the 23d, was rather firmer. Rentes closed at 65.95.

ITALY.

THREATENING DISTURBANCES AT TURIN.

On the evening of 21st a popular demonstration took place before the Royal Palace; shouts were raised of "Turin for the Capital."

A group of rioters endeavored to break the line formed by the military and to force their way into the Ministerial residence. The military were then obliged to fire, killing and wounding several persons.

A Turin dispatch of the 22d says: "The official *Gazette*, of to-day, publishes an account of the events of yesterday, stating that the collision before the Palace was the result of accident. The carbineers were attacked by the crowd, and, without orders, made use of their arms in self-defence."

An investigation has been ordered into the conduct of some of the agents of the police. Several of the citizens were killed and others wounded. 20 carbineers were also wounded, five of them seriously.

A large body of troops has arrived at Turin, and they have been placed under the command of Col. DELLA ROCCA. The National Guard has also been called out.

A proclamation has been issued by the Syndic, recommending the people to return to a state of tranquility. There have been no fresh disturbances to-day."

A Turin despatch of the 23d says:—Yesterday the city was tranquil during the day, but in the evening the disturbances were renewed.

Groups of people assembled and raised seditious cries, throwing stones and firing shots before the royal palace.

The police and troops stationed on the piazza of Con Carlo fired upon the populace, killing and wounding twenty individuals.

Several soldiers were severely wounded, including the Lieutenant-Colonel.

This morning the city has resumed its ordinary aspect. The shops are all open, and the artisans are at work.

It is generally believed that the disturbances will not be revived. The Exchange has closed yesterday.

The accounts which have arrived from all parts of Italy announce that the new Franco-Italian Treaty is received with the greatest satisfaction.

A later telegram, dated evening of the 23d, says: The King has summoned General DE LA MARMORA to form a new Cabinet.

The London *Daily News* remarks that if King VICTOR EMMANUEL has consented to abandon the royal city of his race, all Italy may be well assured that their king is bending to some supreme necessity. What this necessity may be we have no means of judging; but it can hardly be the necessity of renouncing Rome as a capital, and retiring into Tuscany, out of the way of threatening enemies and unfortunate allies.

THE DANISH QUESTION.

It is asserted that the Goot of Baden will propose at the Federal Diet that a definite term be fixed for the Grand Duke of Oldenburg to send in a memorial establishing his hereditary claims to Schleswig-Holstein. The semi-official *Provincial Correspondeur*, of Berlin, in an article discussing the future government of the Duchies, says:—"It may be expected that the great German Powers will shortly come to an understanding with the Federal Diet as to the manner in which the examination of the hereditary's claims respecting Holstein, and also of the other rights to be brought before it prior to the final decision of this question, is to be conducted. For that purpose a Judiciary Federal tribunal will be summoned."

The Commander of the Allied troops in Jutland had issued a proclamation, warning the inhabitants against acting in contravention of the orders of the Military Government of the province.

PRUSSIA.

The semi-official *Provinzial Correspondenz*, published at Berlin, says:

"The Government is scarcely under the illusion that the success of its foreign policy has produced a sudden change in the position of political parties in the interior. It is, therefore, prepared and armed for a renewal of the struggle, which is unavoidable. But the Government does not abandon the hope of reconciliation, because it does not think it possible that the successes obtained by the war should contributed to wehken the opposition against the reorganization of the army, and to facilitate a good understanding upon the military question. From the moment an understanding is arrived at the conflict relative to the budget and to the constitutional question would lose its real importance. The Government contests neither the constitutional right of the Chambers with regard to legislation nor its right to vote the taxes; the conflict is only upon the question whether the cost of the reorganization of the army can be considered as fresh expenditure, and therefore be objected to by the Chambers."

VETO MESSAGE FROM HIS HONOR THE MAYOR.

The following message was received from his honor the Mayor, of resolution directing or requesting an illumination of the public buildings, the appointment of a special committee, &c., in honor of the recent victories by land and sea.

MAYOR'S OFFICE, NEW-YORK, Sept. 29, 1864.

To the Hon. the Common Council:

GENTLEMEN: Your resolution of the 26th instant, appointing a "committee of five from each Board, for the purpose of making the necessary arrangements to cause the various public buildings to be illuminated, in honor of the recent victories on land and sea," is returned, unapproved.

I might acquiesce in your response to an appeal of your fellow-citizens, who might desire to give an expression of their feelings respecting these victories, but I must decline to comply with your request to issue a proclamation to the citizens, generally, to join in such an illumination for various reasons, which I will briefly state.

1. If I should issue such a proclamation, there are many citizens who would be denounced as disloyal, if through want of opportunity, of inclination, or of means, they failed to comply with the recommendation.

2. By those in authority, they are not claimed as Union victories, but as the result of the Emancipation Proclamation, and latest war measure of President Lincoln, as announced in his "To whom it may concern" manifesto.

3. It is asserted that the new policy of the Administration will give us a succession of victories. If this is the case, your Honorable Body will be called upon to illuminate every fortnight, and if the papers in the employ of the Administration, which daily parade "the defeat of the rebels," are to be believed, three times a week.

I yield to no man in my attachment to "the Union as it was, and the Constitution as it is," but as the President demands of the Southern people to abandon the rights which the Constitution confers, I do not see how those who have always held that the Federal Government has nothing to do with the domestic institutions of the States, can be expected to rejoice over victories which, whatever they may be, surely are not Union victories.

If these victories were to unite the States, and were a sure harbinger of peace, I would be pleased, if I could issue such a proclamation as would induce the poorest citizen to part with his last mite for the purchase of a tallow candle to celebrate the event.

4. It has been the immemorial custom of mankind, in all ages and climes, to abstain from rejoicings over victories gained in civil wars, and such has been the practice thus far during the present strife, which has distracted our once happy Union. The only effect of departing from this usage, sanctioned alike by humanity and sound policy, will be to acknowledge, by such exhibitions, that these are victories over aliens and enemies, and that there is no hope of securing peace on the basis of the Federal Union. This hope, in common with a large portion of our fellow-citizens, I am not prepared to abandon.

You are aware that here is the essential difference between the two parties now contending for political mastery in the Northern States; one of these declares that no terms can be offered "except such as may be based upon an unconditional surrender" of the rights of the States, and the other maintains that "peace may be restored on the basis of the Federal Union."

Taking into consideration that a canvass is now in progress of the most exciting character, I am forced to regard the proposed demonstration as one of a political nature, and, according to the rule which I laid down for my guidance on entering upon the duties of Mayor, I cannot give it my official indorsement.

C. GODFREY GUNTHER, Mayor.

Which was laid on the table, directed to be printed on the minutes, and published in the newspapers employed by the Corporation.

PAPERS HERETOFORE LAID OVER.

The week's business in Petroleum, Mr. C. J. TURNER records thus: "The market during the past week has been very unsettled, having been influenced by the fluctuations of gold and exchange. To avoid the excessive difficulties in the way of the exporter during the present unsettled state of affairs, it seems necessary to revert to a specie instead of a currency basis, and already several transactions have been made on the specie basis. NEW PUBLICATIONS.

EVERY AMERICAN CITIZEN
Who wishes fully to understand his duty in this
CRISIS OF OUR NATIONAL AFFAIRS,
And the dangers which beset
DEMOCRATIC INSTITUTIONS,
Should read
DEMOCRACY IN AMERICA,
BY ALEXIS DE TOCQUEVILLE,
Translated by Henry Reeve, Esq.
Edited by FRANCIS BOWEN, Alford Professor of Moral Philosophy in Harvard University.
The Cambridge Edition. 2 vols. Post 8vo. Bound in Maron Vellum. Price, $6.
"M. DE TOCQUEVILLE has written of America and Democracy in a manner that no other man has ever approached; nor do we believe that his book will soon be equaled."—*Boston Traveller.*
"This long famous work, read by tens of thousands in the original French, and by millions in an English translation, has at length found fitting expression and manifestation in the truly beautiful volumes before us."—*Philadelphia Inquirer.*
"The work is such an able exponent of the Republican principle embodied in our Constitution that every American is in a manner bound to make himself familiar with it."—*Chicago Journal.*
"If the instruction and the admonitions of this work were already valuable to American readers, they come with a special claim to their attention at the present time, when the very foundations of our social and civil order are threatened with upheaval and destruction. The chapter on the dangers resulting from a disruption of the Union is one that startles by its vividness. Much that was prophecy when De Tocqueville penned the sagacious outlines of the future awaiting the great Republic has since become history, 'written in blood.'"—*National Intelligencer.*
"It is a book that ought to be generally studied here, for no writer has more thoroughly comprehended the great principles on which our Government is founded than De Tocqueville."—*Portland Transcript.*
The special claims of the
CAMBRIDGE EDITION
of this remarkable book are, that the original translation, which was very defective, has been carefully revised, and in great part rewritten, and that the additions made to the later Paris editions are here first translated. The volumes are beautifully printed on tinted paper at the University Press, and tastefully bound in maroon vellum, and have received the unanimous and unqualified praise of the press, as being the most elegant books ever made in America.

CAMPAIGN DOCUMENTS.

THE NATIONAL UNION EXECUTIVE COMMITTEE will publish immediately a series of Documents in aid of the Union cause for the Presidential Canvass. They are not intended to supersede or take the place of documents issued by the Congressional Committee at Washington, or by any other Union organizations, but rather to supply a want which has been brought to their notice by correspondence from different sections of the country. They will be brief, and will relate wholly to the practical issues directly involved in the canvass. The following are now ready:

I.

ADDRESS OF THE NATIONAL UNION EXECUTIVE COMMITTEE to the People of the United States, Exposing the Sentiments and Purposes of the Chicago Convention.

II.

"THE TWO ROADS TO PEACE"—being the PLATFORMS OF THE TWO PARTIES, adopted respectively at Baltimore and Chicago, with brief comments on their points of difference.

III.

"IS THE WAR A FAILURE,"—being a brief statement of FACTS as to what has been accomplished by the war, together with the opinions of Gens. GRANT, SHERMAN, SEYMOUR and DIX on the subject.

IV.

"WHO SHALL BE VICE-PRESIDENT?"—being a condensed statement of the political opinions and official acts of GEO. H. PENDLETON and ANDREW JOHNSON.

V.

"HOW THE WAR BEGUN AND HOW NEARLY IT IS ENDED"—with a MAP and statistical statements of what has been accomplished toward putting down the rebellion.

VI.

Lives of ABRAHAM LINCOLN and ANDREW JOHNSON in neat pamphlets of 150 pages, with covers—prepared, the former by H. J. RAYMOND, and the latter by JOHN SAVAGE. [On account of the expensiveness of this work, it can only be supplied in limited quantities.]

Others will follow as rapidly as they can be prepared.

The Committee cannot undertake the distribution of these Documents to individuals. They will send them in packages of 1,000 or more to State, County or Town Committees, or to any organization certified to them as likely to make a judicious and effective use of them. They are intended to be put in the hands of candid, patriotic and well-meaning Democrats who seek information concerning the issues of the canvass.

These Documents will be supplied in all cases GRATUITOUSLY,—*those who receive them being expected to pay only the cost of transportation.*

Donations of money that may be sent to the Committee for aiding this gratuitous distribution of Union documents, will be faithfully and economically applied to that object.

All letters should be addressed to the Committee, and all checks should be made payable to the order of the Chairman, Astor House, New-York.

HENRY J. RAYMOND, Chairman.
N. D. SPERRY, Secretary.

NEWS OF THE DAY

THE REBELLION.

The latest intelligence from the Army of the Potomac reports no more fighting. A dispatch dated Sunday evening, says "the rebels fell back this morning to their main line of works, which runs from the lead works to the Southside road, or near it. This position of the rebels is a very strong one, and cannot easily be carried. A division of the Second Corps advanced to the Boynton road, over which the enemy wagon their supplies to Petersburgh. Two lines of works were found unoccupied, only a skirmish line opposing the advance, and falling back as our troops went forward. Near the Boyntown road a very formidable line of works was found, behind which the rebels were posted in heavy force. It was not deemed advisable to attack, and our men fell back and occupy a safe position. They lost a few wounded in the advance. Our loss on Friday was greater than at first stated. The total in killed, wounded and prisoners will foot up not far from 2,000—more than half of whom were taken prisoner. This occurred in consequence of a gap being left between a part of the Fifth and Ninth Corps, through which the enemy charged, and flanked the Second Division of the Ninth Corps.

The latest reliable accounts from Missouri state that PRICE is moving on Rolla in three columns, the right under SHELBY and MARMADUKE, the centre under himself, and the left under COOPER, the latter being mainly composed ot half-breed Indians.

GENERAL NEWS.

The live stock market shows a supply for the week of 45,803 animals, including 6,260 beeves, 151 milch cows, 2,192 calves, 22,614 sheep and lambs, and 14,586 swine. The market has shown a decline generally this week, owing in part to the heavy fall in gold, which has reduced the price of hides and tallow and skins. The receipts of beef cattle have been large, though several hundred less than a week ago, and have sold at a decline from last quotations of ½c.@1c. ℔; medium to good quality steers selling at 13c.@17c., and prime beeves at 18c., dressed weight. While really fine bullocks have been offered in limited numbers, the lighter grades have been in full supply. There were about 450 head of heavy cattle in the yards yesterday intended for Government, but had not been weighed. The sheep market at Sixth-street yesterday was heavily supplied, and prospects in the early part of the day favored a falling off from Monday; good sheep then sold at 8½c., live weight—common lots as low as 6c. Good lambs were worth 9c.; fine, selected ones would bring more. Hogs remain nearly the same as last week; prime corn-fed quoted at 12c.@12½c., live weight; still-fed, 11c.@11½c.

Gold was 1½@2 per cent. down yesterday from the sales of the previous day. The Railways were in a fresh panic at the Stock Exchange, and the afternoon prices were the lowest made upon the New-York and Western lines for many months past. There was no change in the money market. The Government Stocks were steady for 5-20s, but lower on 6 per cents of 1881.

The Democratic Congressional Convention of the Sixteenth District of this State, comprising the Counties of Warren, Essex and Clinton, has nominated Gen. THOMAS S. GRAY, of Warren County, for representative in Congress. Gen. GRAY has been several times elected to the State Legislature, and is a gentleman of decided ability.

Breadstuffs, provisions, groceries, cotton, whisky, oils and tallow were heavy and generally cheaper yesterday. Transactions in other kinds of produce and merchandise were limited, and prices were depressed. The freight market was somewhat brisker.

JACOB KIEFLER was brought before Commissioner STILLWELL yesterday, charged with embezzling and destroying letters addressed to a man named AHERN, who occupied a room over prisoner's store. The evidence showed that KIEFLER could not read or write, and the letter for AHERN being left with him by the letter-carrier, he laid it aside and it was accidentally destroyed. On motion of R. N. WAITE, Esq., counsel for the accused, and with consent of the District Attorney, he was honorably discharged.

The action instituted by the Department for Survey and Inspection of Buildings, against NATHANIEL B. BAILEY and others, sent before the Sheriff's jury, to ascertain whether the tenant houses corner of Worth and Centre streets were unsafe, was decided yesterday. The jury found that they were not safe, and the buildings are now being torn down under direction of the plaintiffs in this action.

In the Court of General Sessions, yesterday, PATRICK H. EAGAN plead guilty to an assault, and was sent to the Penitentiary for one year. FREDERICK MURRY was tried and convicted of grand larceny, and sent to the Penitentiary for six months.

The Comptroller and City Inspector have awarded contracts for freighting ashes and rubbish from the city to GEORGE ELLIOTT and HENRY C. JONES. The former is to take the refuse from the Twenty-third-street dump, free, and the latter takes the refuse from all the other dumps upon the following terms: from Vesey-street dump, and pay the city 1½ cents per cart-load; from Watts-street and pay 1 cent per load; from Roosevelt-street free, and from Stanton, Fifth and Sixteenth streets, and charge the city 3½ cents per load.

The Board of Supervisors met yesterday, when the Committee on Volunteering presented a detailed report of their operations in filling the last quota. The report is very voluminous, comprising one thousand pages of manuscript. It embodies all the correspondence relative to the efforts made to have the enrollment corrected, and in regard to securing the credits of naval enlistments. The report was ordered to be printed in document form. The Board adjourned to 10 A. M. on next Tuesday, when the Inspectors of Registry probably will be appointed.

Much capital has lately been attempted to be made by the Copperhead papers out of the political riot in St. Louis a few weeks ago. An investigation of the facts by Gen. ROSECRANS, proves conclusively, that the first stone was thrown by the Copperheads at the soldiers, accompanied by taunts of cowardice, which provoked retaliation on the part of the soldiers.

Gen. HOOKER arrived at Cincinnati, and assumed command of the Northern Department on Monday last.

The Vast Importance of a Vast Majority.

We consider the re-election of President LINCOLN to be as certain as any future event can be. But there are other objects beyond that in this Presidential canvass. The bare re-election, though it would suffice to reinvest Mr. LINCOLN with his complete constitutional power, would yet secure but a portion of the practical benefits that should come from this appeal to the people, and, indeed, might add to our dangers. To be fully efficacious—we may say, in fact, to be fully safe—this re-election must be made by *a heavy majority*, both of the people and of the States. In this respect it differs essentially from all the Presidential elections which have preceded it.

It must not be forgotten that there is a strong revolutionary element here in the North. How strong it is, it is impossible to say. JOHN MCKEON, one of the most intelligent of the Copperhead leaders, declared in his speech at the McClellan ratification meeting in this City, that it was strong enough not only to attempt, but to consummate a revolution. His language was: "If ABRAHAM LINCOLN is reëlected, there will be a bloody revolution in the North and West." HENRY S. FOOTE, rebel member of Congress for Tennessee, writes to the Richmond *Whig* in great confidence: "I venture to predict that should MCCLELLAN and PENDLETON be defeated, the States in which the Republican Presidential ticket shall be found to have failed, will themselves promptly secede from the Federal Union, and form a military alliance with the Confederate States." These sanguine rebels and Copperheads make their predictions too broad and absolute. The outbreak which they prophesy will depend not simply upon the fact that Mr. LINCOLN is reëlected. If he is reëlected by an overwhelming majority, no outbreak will occur, or even be seriously meditated. The strength of the revolutionary element is not actual, so much as potential. It is as yet undeveloped. The character of the electoral vote will determine its real compass and capacity for mischief.

But twenty-four of the thirty-five States will participate in this election. They will cast two hundred and thirty-one votes. Suppose that Mr. LINCOLN should receive but a bare majority of these—say 116 or 120—can it be doubted that the fact would promote a spirit of resistance to the election? Would there not be a desperate pushing of a pretense that a third of the States, or a third of the entire electoral college, (including what might have been the votes of the Southern States,) have no right to impose a ruler upon the rest? It is true that the Constitutional validity of such an election would be undeniable. The language of the Constitution is explicit. "The person having the greatest number of votes shall be President, if such a number be a majority of the whole number of electors *appointed*." According to the Constitution, no account whatever is to be made of States which do not appoint their electors. But what care revolutionists for such safeguards? It would be urged that the Union might have been restored but for "LINCOLN's tyranny," so that all the States could have gone into this election; and that "the despot" must not be allowed to take advantage of his own wrong to perpetuate his power. This clamor would be all the more violent if the rebel leaders, giving up all hope of accomplishing the independence of the "Confederacy," should, before the 4th of March, make propositions to the Copperhead leaders for a return to the Union if allowed their constitutional vote for the next Presidency. The Copperhead leaders would be but too glad to agree to this, for they would share in the power so gained. And if we may judge by their spirit hitherto, they would go any length, even into revolution itself, in pursuit of such an object.

It is possible, even, that the Chicago Convention itself might be used to further this revolutionary combination. On motion of Gov. WICKLIFFE, of Kentucky, a notorious rebel-sympathizer, it took the unprecedented step of resolving itself into a permanent body, and, on call of committee, may be reconvened at any time before the 4th of March. Its revolutionary *animus* was exhibited in its third resolution;

> "That the interference of the military authorities of the United States in the recent elections held in Kentucky, Maryland, Missouri and Delaware, was a shameful violation of the Constitution; and a repetition of such acts at the approaching election *will be held as revolutionary, and resisted with all the means and power under our control.*"

This "interference" was simply a protection of the polls in rebel sympathizing districts from violence, so that Union men could exercise their rights, and a prevention of votes by those who would not take the oath to support the Constitution, as required by State law. But it matters little what the pretext is. A revolutionary spirit was, and still is, in that convention; and it would be folly to shut our eyes to the fact that it is capable of being most malignly used in conjunction with the baffled Southern rebellion.

The only security of the country lies in a stupendous majority for Mr. LINCOLN. The loyal people of the land must show a strength at the polls which would confound every thought of revolution. They must carry electoral votes enough to silence every Copperhead suggestion that the poor, muzzled Southern States would make the result different, if allowed their Constitutional rights.

There is no reason why every State that votes may not be carried for ABRAHAM LINCOLN, save New-Jersey and Kentucky. In spite of the fact that the Copperhead Legislatures of Illinois, Indiana and Delaware, for the time, disfranchised their soldiers in the field, it is now quite certain that there is yet patriotism enough in these States, if properly exerted, to carry the Union ticket; and surely if that be possible for them, there should be no doubt in respect to the ability of the other States, whose soldiers can vote. Give Mr. LINCOLN all the loyal States but New-Jersey and Kentucky, and he will have more than *three-fifths* of all the States of the Union, and more than *two-thirds* of the entire electoral votes, supposing all the States had voted.

This is an object which is attainable; and it should surely be attained. We do not dwell upon the great effect such a vote would have in breaking down the rebellion by encouraging and stimulating our soldiers, and by correspondingly disheartening the rebels, who are now counting so greatly upon MCCLELLAN's election. It would indeed secure all that, but what adds immensely to its importance is, that it would also insure a quiet submission to the election, and the regular working of the Constitution. It would make an end not only of the Southern rebellion, but of all revolutionary designs in every part of the country.

The Rebel Soldiers Forecasting the End of the Rebellion.

We have had, during the war, so many stories of repentant rebel soldiers that have proved to be utterly worthless, that it is, perhaps, well not to lay too much stress on those that are so freely repeated at the present time. It does seem, however, comparing the reports of the various correspondents in the Valley with SHERIDAN, that LEE's conscripts are getting tired of their work; that they are getting tired, moreover, in large numbers, and that EARLY has actually lost more by desertion than he has in killed, wounded and prisoners. Every mile of the army's march up the Valley, our army has found squads of fugitives eager to get protection from their late military employers, and ready to march as far as their limbs could carry them away beyond the bounds of the Confederacy. The number of guns deserted by EARLY in his Southward flight is, in a measure, proof in itself, that his men could not be depended on. One great battle, and *one only*, has been fought since SHERIDAN crossed Opequan Creek—the battle which began at Darkesville at gray dawn of Monday, the 19th of September, and closed on the outskirts of Winchester at nightfall of the same day. In the series of engagements which made up that battle, SHERIDAN took, in all, but five guns.

The engagement at Fisher's Mountain, important as it was in results, was neither sanguinary nor prolonged. It was a spasmodic struggle on EARLY's part to hold his pursuer in check, at a point of great defensive strength, for a couple of hours or so, to enable the fugitives to take once more to flight under cover of the night. Yet, brief and comparatively bloodless as was the struggle here, some sixteen guns fell into SHERIDAN's hands. The engagement, two days later, at Luray Court-house, was of a still less sanguinary character; and yet between that engagement and the destruction of the Staunton and Waynesboro Railroad, reported in SHERIDAN's dispatch of Saturday last, nine more guns must have been captured—for the whole number of these trophies already in our possession is found to number thirty.

Looking thus at the nature of the engagements in the Valley, and comparing the various reports—some of which have, doubtless, an extra supply of coloring—we are forced to the conclusion that EARLY's men had begun to show an alarming spirit of disaffection long before he reached Staunton; that this hastened his flight, and compelled him to sacrifice his artillery right and left, and trust to fortune and his expected supports from LEE to save some shadow of a remnant of his command. All the testimony agrees that the deserters found on our line of march are loud and deep in their execrations of their late military superiors. And without regarding this as any very flattering sign of a revival of loyal feeling, we think it is a fair enough conclusion, that these renegades—if we are to call them such—find the cause of the rebellion giving way. They wish to be out of the deep damnation which is overtaking the thing. They foresee some virtue in being out of the fight when the final catastrophe comes. It is a kind of virtue which will find a number of worshipers in political life among ourselves during the next thirty days, when these heavy blows by GRANT and his Lieutenants have knocked the Peace Platform and its feeble supports into inevitable *smash*.

The Revolution in the Cotton Trade.

The latest reports from the British markets respecting the extraordinary revolution and the present prospects of the cotton trade, deserve to be emphasized.

On Saturday, the 17th of September, the stock in hand at Liverpool had increased to 391,000 bales—or considerably more than double what the stock was on the same day of 1863, and exactly 140,000 bales more than the stock at the beginning of September of the present year. Within the year the price has fallen off nearly one-fourth in value, or fully 6d. sterling per pound. The imports at Liverpool at the present rate of increase bid fair to double those of 1862. The stock on the 17th of September, 1863, was less than one-fifth of the stock now on hand.

For the three years immediately preceding the rebellion, the supply furnished by the United States alone to Great Britain averaged over 1,900,000 bales. During the two worst years, since the war commenced, the yearly supply received in England from *all* sources was at a lower rate than this by an average of some two hundred and fifty thousand bales. The present year, however, gives promise of compensation for the bad years. The British supply for the current year, at the present rate of increase, will probably reach 2,500,000 bales. This, it will be seen, would allow a weekly consumption of over 48,000 bales, or about one thousand bales more than the year of largest cotton consumption—1860.

The British cotton manufactures of 1860 were so largely in excess of the actual demands of trade, that it was many months after the supply of the raw material had begun to fail at United States ports, before the price of manufactured goods was sensibly affected. And yet before an effective blockade of the cotton ports on this side of the Atlantic has been three full years in operation, the supply of the raw stuff at British ports is actually found to be in excess of the most prosperous year immediately preceding the rebellion.

The Liverpool speculators, looking to the probability of an early termination of the war, and fearing a rapid and ruinous decline in prices as the result, attempt to console themselves with the reflection that the South—even were there peace declared within three months—would not have its railroads in a state of repair for many months, so as to make them available for the transportation of cotton.

AMUSEMENTS.

ACADEMY OF MUSIC.—We have already—with the brevity becoming to a mere item of news—recorded the success of Mr. MARETZEK's opening night. What remains to be said, we will say now. It is unnecessary to revert to the opera of "Il Trovatore," which is rather familiarly known here, except in the way of illustration. The merits of the work are thoroughly appreciated—so thoroughly, indeed, that nothing but a new caste can give it vitality. This was provided by Mr. MARETZEK, whose reception was enthnsiastic, and of whose new artistes we have, therefore, only to speak. Mme. CAROZZI-ZUCCHI was the heroine. The lady, like many others who have preceded her, comes direct to us from Italy. Her career here will decide her standing in Paris and London; will decide whether she ever visits either of those cities. Brag as they may, we have generally better singers in New-York than they can boast of in any one theatre of Europe. From Mr. MARETZEK's occasional campaigns, the English houses, at all events, have been supplied for many years, and, in the matter of operas, the New-York house is generally ahead of the London ones.

Mme. CAROZZI-ZUCCHI possesses a soft and persuasive organ, truly soprano in its character, but evidently trained downward for the low toned efforts of the modern school—which she produces with absolute facility. The higher notes are somewhat forced, depending more on the art of the singer than the compass of her voice. But as this art is all-sufficient, there is nothing unpleasant about these high notes. The positive merit of each intonation belongs unquestionably to Mme. ZUCCHI. She phrases also with exquisite taste, and a warmth that belongs only to Italian inspiration. Instead of the cold and labored balance of measure that marks the efforts of singers in other schools, she presents a succession of dynamic efforts which sway the audience with the precise emotion that she desires to create. Her gradations from the faintest whisper of affection to the most vehement outbursts ot passionate grief, are thoroughly artistic. In all that relates to light and shade, (to accumulation and diminution of voice,)

Mlle. ZUCCHI ranks fully as high as any of her illustrious predecessors, whilst in the particular of fire she reminds us more of STEFFENONE than of any one whom we can now recall to mind. The traits which we have described indicate the actress as well as the singer, and it will not surprise the reader to learn that the lady's success in the fourth act was complete. Nothing could be finer than her scene with the Count. It was almost painful in its intensity, and yet there was not a violent attitude or an exaggerated note in it from beginning to end. The Tower scene was equally admirable. It had the effect of temporarily releasing *Manrico* from captivity, but that hapless tenor was compelled to return to his cell (sumptuously furnished with a good piano) and pipe his tuneful ditty once more for the satisfaction of the audience.

Signor MASSIMILIANI, the gentleman referred to, did not do full justice to himself in the first and second acts. The opening serenade was obviously shaken by fright, and although a high note, desperately projected at its conclusion, had the effect of bringing down a round of applause, it did not by any means satisfy the public. In the trio, Signor MASSIMILIANI succeeded in electrifying the listener by another tremendous delivery of his upper notes, but from this point to the end of the second act his general performance was constrained, respectable and rather dull. Thereafter, everything was changed. In the third act every note came forth freely, all his movements were dramatic, dignified and spirited. The aria *Du quella pira* was irresistible. It brought down the house with a tumult of applause. The mettle of the new singer was now acknowledged, and to the end of the opera it was nothing but an ovation in his honor. It remained only for him in the last act to prove the quality of his voice; its sufficiency in other respects having been amply demonstrated. The scenes with *Azucena* afforded him the requisite opportunity, and they were were interpreted with a tenderness which we do not remember to have ever heard excelled. The Tower scene has already been referred to. Nothing could be better. It owed its encore to Signor MASSIMILIANI. The fourth act indeed, in every respect, was sung admirably, and gave complete enjoyment to an audience that was not disposed to be over-cordial, and which, in point of fact, had no reason to be so until late in the evening.

Signor MASSIMILIANI has a robust tenor voice of unusual compass and power. It is a little weak and stubborn in the lower register, and somewhat throatey, but when fairly started it rises easily into the most vehement altitudes, and dominates everything with a clear, resonant fullness that can hardly be surpassed. He is evidently a fine musician, and understands completely his own resources, which are so ample that he need never economise them. He is an actor of a good and undemonstrative school. In the earlier acts there are no opportunities for revealing this fact, *Manrico* is simply a man in armor. But in the last scene, where he recognizes the devotion of *Leonore*, and shrinks humbled before her at the sacrifice she has made for him, there was a moment of dramatic intensity that was worthy of the best actor on the modern stage.

The chorus, this evening, is better than it has ever been at the Academy of Music. Mr. MARETZEK has succeeded in obtaining many new and fresh voices. In the orchestra, too, there is a noticeable improvement in the quick and appreciative taking of the *impresarios tempi*. The old players used to saw through an opera with an industry of their own that was not tempered by the intelligence of any one else. There were defects, however, in the performance of Monday night, which will undoubtedly be remedied on the next performance. The dresses of the opera were unusually rich—the best we have seen for many days.

VERDI's opera of "La Traviata" was given here last night for the *debut* of MLLE. BRAMBILLA, who sustained the rôle of *Violetta*. The lady has a pleasing appearance, and a small and cultivated voice. Its capacity was not displayed last night, and we hardly think that its power will be sufficient to fill so large a house as the Academy. The male parts were well rendered by Signor MASSIMILIANI and Signor BELLINI, the latter gentleman being especially spirited and good.

To-night Signora ZUCCHI will make her second appearance as *Lucretia Borgia* in the opera of the same name. Two great favorites of the public also appear in this opera, Signor LOTTI and Signor SUSINI.

THE HIPPOTHEATRON.—This spacious home of the equestrian drama has been opened for the season under its original management, with the addition of Mr. JAMES N. NIXON, as director of arrangements, than whom in this important department, few, if any better, exist. During the Summer recess several important improvements have been made. A double roof has been placed on, obviating entirely the condensation of vapor complained of last year; the seats have been widened and enlarged, perfect means of both ventilation and steam-heating adopted, with many other minor improvements conducive to the comfort of the patrons. The new range of stabling, in which the fine stud of horses is contained, is open to public view at all ordinary hours, and forms an interesting feature.

The performances on Monday evening were of the most varied and elegant description, employing the talent, equestrian, gymnastic and acrobatic of a large and truly excellent company, prominent among whom are MDLLE. MARIETTA ZANFRETTA, the great tight-rope artiste; Young NICOLO, the youthful rival of LEOTARD, on the flying trapaze, whose debut last year was so brilliant and successful; MDLLE. IDA, a charming equestrienne; the TALLEEN brothers, MDLLE. VIRGINIA, the SHERWOOD and SEIGRIST families, and a host of others. The two French *comiques* are also exceedingly amusing. There will be a grand matinee to-day at 2 P. M., and another on Saturday.

Quoit Playing.

A grand quoit match is arranged to come of Wednesday, Oct. 12, on the inclosed quoit grounds, situated corner of Putnam-avenue and Downing-street, Brooklyn—"The Lighthouse Shades." The contest will be between those noted players, Messrs. JAMES MCLEAREN, of Newark, and JAMES GIBSON, of the New-York Club. At the conclusion of this important contest, a match will be made by those present to wind up the day's sport. No doubt this will be a regular gala day among the quoit-playing fraternity, as most of the best players in Brooklyn, New-York, Newark and Jersey City have expressed their intention of being present. This will be the third meeting between these celebrities, the New-York player having won two games, notwithstanding which the Jersey player has plenty of supporters. Quoit playing of late years has become decidedly a most popular game among our admirers of athletic sports.

The American Board of Commissioners for Foreign Missions.

WORCESTER, Mass., Tuesday, Oct. 4.

The fifty-fifth annual meeting of the American Board of Commissioners for Foreign Missions commenced here to-day. Rev. Dr. HOPKINS, of Williams College, presided. The annual sermon was preached this evening by Rev. Dr. CONDIT, of Auburn, N. Y. The city is filled with strangers—the number estimated by some as high as five thousand. Everything promises an unusually interesting and successful meeting.

NEWS FROM WASHINGTON.

Special Despatches to the New-York Times.

THE INCREASE OF THE PUBLIC DEBT.

WASHINGTON, Tuesday, Oct. 4.

An elaborate series of investigations into the increase of public debt during the war has just been completed by Dr. ELDER of the Treasury Department. The results show that the mean increase of the public debt during thirty-nine months, since July 1861; is as near as may be a million and a half of dollars per diem during the first two months of this period. The mean increase was one million three hundred thousand dollars. Subsequent to that it stands a mean of one million nine hundred thousand dollars, exceptional days showed a maximum of three millions, and a minimum of one million dollars, but the mean for the time has been as above stated, one million five hundred thousand dollars per day. This statement entirely disposes of the howl constantly made by Copperheads upon the vast increase of the public debt. Their documents, journals and banners ring constant changes on that subject, stating that the increase of the public debt to have averaged at least three million dollars per day since the commencement of the rebellion.

GEN. BUTLER NOT KILLED.

Awful rumors, which have been circulating this evening, to the effect that Gen. BUTLER had been killed in a late engagement with the rebels, are entirely without foundation.

Up to a late hour this evening, nothing had been heard from Gen. GRANT later than that which has been published in the morning papers.

PERSONAL.

Hon. ROBERT C. SCHENCK, of Ohio, is in town.

Maj. WATSON CARR, Inspector-General of Gen. BRECKINRIDGE's Corps, was sent in last night as a prisoner of war, and committed to the Old Capitol. The officer in question before the war held a commission in the U. S. Army.

AN OVERDUE STEAMER.

The steamer *Fairbanks*, of the New-York and Georgetown line, Capt. HUNTER, which left New-York on Tuesday, the 27th of September, has not yet reached Georgetown. Nor have any tidings been heard of her since she sailed from New-York. She has on board about $200,000 worth of freight, consigned to various parties in this city and Georgetown. The regular time from New York here is two days; this is her seventh day out.

BRAVERY OF THE COLORED TROOPS.

An officer belonging to Gen. GRANT's Staff, who was present at the battle of Chapin Farm, informs us that he was much struck with the good conduct of the negro soldiers on that occasion. They went into the fight with the bayonet, doing fine execution. This officer also relates, that after the battle the fortitude displayed by the colored soldiers at the landing, while waiting for boats to arrive and convey them to the hospitals, was most admirable. Gen. BUTLER has about ten thousand colored troops, and he makes it a point to give them equal chances with the white men, according to their proportionate numbers with the white soldiers of his command. When well officered, the black regiments have always been found good soldiers.

PRIZE CASES AND PRIZE MONEY.

The number of prize claims settled in the month of September in the Fourth Auditor's office, was seventeen hundred and fifty-nine; amounting to five hundred and forty-one thousand seven hundred and sixty-eight dollars and forty-eight cents. Some of our gallant tars received handsome slices of this large sum, two thousand dollars having been, in some instances, paid to a common sailor for his share in a single prize.

DISMISSALS.

Dismissals for the week ending Oct. 1, 1864: Lieut.-Col. EDW. THORN, Forty-fifth Untited States Colored Troops, to date Sept. 24, 1864, for violation of the Fifth Article of War, and conduct unbecoming an officer of the Army of the United States. Lieut.-Col. MONTGOMERY MARTIN, Fifty-eighth Pennsylvania Volunteers, to date Sept. 29, 1864, for absence without leave. Lieut.-Col. W. W. S. SNODDY, Two Hundred and Seventh Pennsylvania Volunteers, to date September 23, 1864, for inducing men to enlist by false promises, in violation of the regulations of the War Department. Lieut. JOHN F. RAMSEY of the One Hundred and Eighty-Seventh Pennsylvania Volunteers, to date August 19, 1864, for conduct unbecoming an officer, in permitting enlisted men of his Company to act as sutlers and sell liquors to soldiers. Lieut. G. H. GROSVENOR, Sixteenth New York Cavalry, to date September 27, 1864, for conduct unbecoming an officer and a gentleman, breach of arrest, and obtaining the countersign by surreptitious means.

DEATHS IN HOSPITAL.

The following deaths of New-York soldiers are reported to-day: Nathole Fakis, Co. C., Sixth Artillery, Bernard Bagley, Co. B., Sixty-First Infantry, David Nickerson, Co. E., One Hundred and Twentieth Infantry, Eugene Mason, Co. G., One Hundred and Fifty-seventh, Fred'k Lamareaux, Co. C., One Hundred and Twenty-fourth.

Dispatches to the Associated Press.

REGULATIONS FOR VOTING IN THE ARMIES.

The following General Order has just been issued from the Adjutant-General's office:

"In order to secure a fair distribution of tickets among soldiers in the field who, by the laws of their respective States, are entitled to vote at the approaching elections, the following rules and regulations are prescribed:

First—One agent for each army corps may be designated by the State Executive, or by the State Committee of each political party, who, on presenting his credentials from the State Executive, or the chairman of said committee, shall receive from this department a pass to the headquarters of the corps for which he is designated with tickets, or proxies, when required by State laws, which may be placed by him in the hands of such person or persons as he may select for distribution among officers and soldiers.

Second—Civilian inspectors of each political party, not to exceed one for each brigade, may in like manner be designated, who shall receive passes on application to the Adjutant-General, to be present on the day of election, to see that the elections are fairly conducted.

Third—No political speeches, harangues or canvassing among the troops, will be permitted.

Fourth—Commanding officers are enjoined to take such measures as may be essential to secure freedom and fairness in the elections, and that they be conducted with due regard to good order and military discipline.

Fifth—Any officer or private who may wantonly destroy tickets or prevent their proper distribution among the legal voters, interfere with the freedom of the election, or make any false or fraudulent return, will be deemed guilty of an offence against good order and military discipline, and be punished by summary dismissal or court martial.

THE REPORTED ARRIVAL OF ADMIRAL FARRAGUT.

The report that Admiral FARRAGUT has arrived at the James River is not credited at the Navy Department, which has received information that Capt. LARDNER, just relieved from the command of the West India Squadron, has reached Old Point. It is therefore probable that the one has been mistaken for the other.

The Sanitary Commission in the Shenandoah.

The Sanitary Commission has long made Harper's Ferry a centre of operations. Though the late important battle of the Opequan was unannounced, Colonel Muhleck, in charge of the Commission's work at that point and vicinity, including Cumberland, Martinsburg and Winchester, Va., was promptly on the field of battle with his corps of assistants and stores, which were most welcome to the men and the Medical Department. The store-house at Harper's Ferry was quickly emptied, but the second day after the battle, a fresh supply of articles most needed arrived from Baltimore, where they had been stored in anticipation of such a call, forty buildings being appropriated for this use. The distance from the Ferry to Winchester, where the wounded were gathered, is thirty-six miles, without rail communication, and the country infested with guerrillas. Supplies were immediately pushed forward in wagons under the protection of a cavalry escort. Thirteen four-horse army wagons are used in this work, with the occasional addition of wagons and ambulances, generously provided by the military authorities. These wagon-trains are run day and night, and thus far without loss. For aid and protection in this difficult part of the work the Commission is greatly indebted to Gen. Stevenson, in command at Harper's Ferry, and Col. Edwards, Thirty-seventh Massachusetts Volunteers, commanding post at Winchester.

On the day of the battle Dr. J. F. Jenkins, the General Secretary, with Mr. F. N. Knapp, Associate Secretary, and Mr. John S. Blatchford, of Boston, started for the field, and with Col. Muhleck they rapidly effected a thorough organization of the work, commensurate with an emergency so great. It may be truly said that the Commission has never used its resources with more efficiency and beneficent result than at this time, and the good work daily goes on—thanks to a generous public whose gifts it dispenses. Agents have been rapidly sent forward from this city and from Philadelphia, and there is now on the ground a working force of about forty men. Winchester is well nigh one vast hospital. Outside the town the new camp hospital, called the Sheridan, is fast organizing, to which the wounded will soon be transferred. In connection with this a Diet Kitchen has been established, by the Commission, and placed under the charge of Miss Harris. The town hospitals have been divided into seven districts, and a portion of the Commission's work in these has been assigned to seven most estimable Union ladies, who will be assisted by others, also residents of the town. Let these patriotic and Christian ladies be remembered! Their kind deeds have gladdened many of our weary and sick and wounded men in other campaigns, and their devotion is limited only by lack of resources.

We add the names of those who are acting as agents for the Commission:

Mrs. Trippe, Miss Allie Sharp, Miss Hattie Griffith, Miss Sallie Diffenderfer, Miss Martha L. Sidwell, Miss Mattie Shumate, Miss Annie Diffenderfer.

At the hospital of Confederate wounded, in charge of their own surgeons, Mrs. Williams, of Winchester, has been appointed agent, being peculiarly fitted for this difficult position. A certain portion of the stores is consigned to her for distribution. The seriously wounded will be retained in the General Hospital instead of being transported to distant places at the risk of life. For this merciful decision we are indebted to Dr. Brinton, the excellent Medical Director.

The following list will partially indicate the variety and quantities of articles needed at such crisis of a campaign, being those forwarded from Baltimore up to September 28, and not including heavy consignments from Washington, nor the goods in store at Harper's Ferry at the beginning of the battle. The value is about $40.000:

3,242 wool shirts, 3,336 wool drawers, 4,000 handkerchiefs, 3,832 pairs wool socks, 300 blankets, 500 quilts, 896 bed sacks, 6,062 cushions, 618 pillow ticks, 628 pillows, 1,024 pillow cases, 703 cotton drawers, 516 cotton shirts, 450 pairs of slippers, 263 sheets, 996 pairs cotton socks, 20 pieces mosquito netting, 15 pieces oil silk, 36 barrels crackers, 540 pounds desicated eggs, 960 pounds roast beef, 3,264 pounds condensed milk, 1,196 pounds beef stock, 2,195 pounds coffee, 1,852 pounds sugar, 176 pounds tea, 384 pounds peaches, 10 barrels eggs, 20 boxes lemons, 50 boxes chocolate, 8 barrels potatoes, 1 barrel vinegar, 357 barrels dried apples, 120 pounds corn starch, 288 pounds Farina, 60 pounds canned chicken, 47 pounds butter, 1,673 bottles whisky, 600 bottles cherry wine, 78 gallons Pickles, 112 bottles blackberry brandy, 858 bottles Jamaica ginger, 12 bottles alcohol, 12 bottles Jamaica rum, 150 pounds candles, 430 pounds soap, 1,104 tin cups, 250 bed-pans, 50 feeding-cups, 240 spit-cups, 509 tin plates, 144 basins, 108 lanterns, 12 dozen candlesticks, 150 headrests, 12 bed tables, 41,000 envelopes, 25 reams note paper, 179 dozen chewing tobacco, 179 dozen smoking tobacco, 10 hogsheads of ice, 750 pairs of crutches, linen, bandages, pails, spoons, knives and forks, brooms, washboards, washtubs, baskets, chisels, tacks, hatchets, axes, saws, hammers, corkscrews, can-openers, lamps, kettles, stoves, oil, pans, boilers, blank books, mucilage, penholders, pens, lead pensils, ink, corn meal, lint, sponges, adhesive plaster, table salt, shoes, oats, hay, reading matter, &c.

Aid to Union Prisoners in Charleston.

It will rejoice many hearts to know that the United States Sanitary Commission has opened a communication with our officers and soldiers imprisoned in Charleston, Andersonville, and other places in the South. Through Lieut.-Col. Woodford, Agent of Exchange at Charleston, assurances have been received from Maj. Lay, the Confederate Agent of Exchange, that supplies of specified kinds, and packed under specified directions, will be safely forwarded to our men. The offer was received by the Commission with some distrust, and it was not until after a thorough examination of the grounds of encouragement for the successful issue of an undertaking so important, that the decision was made.

Dr. D. M. Marsh, the efficient agent in charge at Beaufort, S. C., has already sent over the lines the following articles:

24 cases beef stock, 14 do. condensed milk, 13 do. coffee, 13 do. tomatoes, 1 do. cocoa, 24 do. chocolate, 4 do. pickles, 4 do. jellies, 11 barrels crackers, 1 do. dried fruit, 25 tin cups, 10 bottles stimulants, quantity black pepper, do. red pepper, do. soap, combs and pin-cushions; do. writing paper and envelopes, 2 cases lemon juice, 36 linen vests, 36 do. coats, 40 pairs pants, 20 lbs. tea, 202 woollen blankets, 100 quilts, 1,290 towels, 1,300 handkerchiefs, 1,150 pairs woollen socks, 590 do. slippers, 750 do. woollen drawers, 400 do. cotton drawers, 400 do. cotton shirts, 780 do. woollen shirts.

A second lot is on the way, viz:

3,000 blankets, 2,000 shirts, 2,000 pairs drawers, 2,000 do. socks, wool, 1,000 pairs shoes, 2,000 do. pants, wool, 2,000 do. blouses, wool.

If the object is attained, and no new obstructions arise, the Commission will continue the merciful work, as far as its means will allow.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes payable three years from Aug. 15, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold-bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1,000 and $5,000, and all subscriptions must be for fifty dollars, or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

SPECIAL ADVANTAGES OF THIS LOAN.

It is a National Savings Bank, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in United States notes considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

CONVERTIBLE INTO A SIX PER CENT. 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. U. S. Stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION.

But aside from all the advantages we have enumerated, a special act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

SUBSCRIPTIONS WILL BE RECEIVED

THE REASON WHY

the PERUVIAN SYRUP has been so successful in curing so many different diseases is, that it supplies the blood with its vital principle, or

LIFE ELEMENT, IRON,

thereby infusing strength, vigor and new life into the diseased and debilitated system.

The proofs of the efficacy of this remedy, in thousands of cases, where ordinary medicines have failed to give relief, are so well established, that invalids cannot reasonably hesitate to give it a trial.

A GOOD NOVEL
AND
A FRESH BOOK OF TRAVEL AND ADVENTURE.
HARPER & BROTHERS, New-York,
Publish this day:

I.

ROSS BROWNE'S
CRUSOE'S ISLAND, CALIFORNIA,
AND WASHOE.

CRUSOE'S ISLAND; a Ramble in the Footsteps of Alexander Selkirk. With Sketches of Adventure in California and Washoe. By J. Ross Browne, author of "Yusef," &c. With illustrations. 12mo. Cloth $1 75.

"These accounts of Mr. Browne's varied travels in divers portions of the globe, are marked by the peculiar characteristics of the author. At the bottom of all, is sound common sense, keen observation, and a quick perception of odd phases of character; or rather, perhaps, the odd phases of even the most common-place characters. If there is anything quaint or humorous in any person whom he meets, it is sure to be drawn out by the magnetic attraction of Mr. Browne's genial humor. * * * * In nothing is Browne more happy than in hitting off the traveling John Bull, as, provided with the thousand and one absolute necessities of a gentleman, he undertakes 'to rough it' in the wilds of California. Leech does not more cleverly hit off the Englishman at home than Browne does the Briton abroad, with pen and pencil, for he is as clever with one as with the other. There is nothing ill-natured in Mr. Browne's humor. He likes the world and everybody in it; and so everybody likes him. He cannot travel a day in the strangest country without making friends."

II.

TROLLOPE'S LINDISFARN CHASE.

Lindisfarn Chase. A Novel. By T. Adolphus Trollope. 8vo. Cloth, $2; Paper, $1 50.

"In 'Lindisfarn Chase,' Mr. T. Adolphus Trollope has put himself fairly in competition with his more celebrated brother, the author of 'Orley Farm,' and 'The Small House at Arlington,' as a delineator of life and manners. The character of Marguerite, the English girl who has been *bien elevée* by a French kinswoman, and of her own *mari*, Mr. Frederick Falconer, the calculating young banker, are as carefully studied and skillfully developed as any personage in Balzac."

RELIGION AND CHEMISTRY;

Or, Proofs of God's Plan in the Atmosphere and its Elements. By Prof. Josiah P. Cook, Jr. Printed on tinted paper at the Cambridge Press. 1 vol., octavo. $3 50.

The aim of the work is to illustrate, in a popular way, the adaptations of our atmosphere and its constituents in the general scheme of creation, and to show that the great argument of natural theology, as well from special adaptations as from a general plan, may be based wholly on the properties of lifeless matter, thus answering all objections which rest on recent theories of organic development.

II.

MODERN PHILOLOGY;

Its Discovery, History and Influence. By Benjamin W. Dwight. 1 vol., octavo. $3 50.

Also, a NEW EDITION OF FIRST SERIES OF MR. DWIGHT'S WORK. Uniform with the second series, making the work complete in 2 vols., octavo. Price $6.

Designed as an aid in teaching and in historical studies By T. D. Woolsey, LL. D. In 1 vol., octavo, $3 50.

It touches very fully on some points of the science which the present war has brought up.

GREAT MEETING

SOLDIERS' MEMORIAL ASSOCIATION,
AT THE
COOPER INSTITUTE.

A public meeting of the SOLDIERS' MEMORIAL ASSOCIATION will be held at the COOPER INSTITUTE, On WEDNESDAY EVENING, Oct. 5, 1864, for the purpose of considering and adopting such means as may be thought proper, to promote the objects of the association. All ladies and gentlemen who feel an interest in the cause, are invited to attend.

By order of the Board, WARING LATTING, Sup't.

A number of patriotic citizens having organized themselves into an association for the purpose of erecting a suitable memorial to our brave soldiers, who have sacrificed their lives in support of the Government in the present war, and it being intended that such memorial or monument shall serve not only to perpetuate the memory of the fallen brave to future generations, but shall also be made, by its great attractiveness as a place of public resort, the source of a large and perpetual income in aid of the destitute orphans of those soldiers and sailors, who having given their lives to their country, leave their unprotected little ones a legacy to their countrymen.

We, the undersigned, therefore, most heartily approving of the above objects, do recommend to the patriotic and benevolent of our fellow-citizens, to attend the above meeting, for the purpose of coöperating in the accomplishment of so desirable an object. Signed by

CATARRH CURED.

THE CASE OF HUTCHINGS, THE "LIGHTNING CALCULATOR."

There was published in these columns a few days since the remarkable cure of Hutchings, the "Lightning Calculator," so well known to the public during the many years he exhibited his wonderful arithmetical powers at Barnum's Museum, by the celebrated Oculist and Aurist, Dr. Von Eisenberg, of this City. Hutchings is represented to have been at the point of death, and but for the timely interference of the Doctor, would now be resting in his grave. This is a remarkable case, and worthy of the attention of persons similarly afflicted.

We think it is but just to Doctor Von Eisenberg to call public attention to this case. There are hundreds in the community suffering from catarrh, who, like the "Lightning Calculator," if not actually praying for death, are ready to accept of anything that promises to relieve them from their distresses. To such we would say, trifle not with inexperienced men, but consult, without unnecessary delay, Dr. Von Eisenberg, who, at least, has the honesty to assure his patients whether it is within his power to make them whole or not.

DEAFNESS CURED.

From the Tribune.

EARS TO THE DEAF.

Every man, and especially every woman, believes in his or her physician. There are philosophical minds which hold to an abstract faith in Allopathy, or Homœopathy, or Hydropathy, or some other form of scientific cure; but with the world at large the belief is not in the system, but in the doctor. Especially is this true as regards aurists and oculists. The patient who has recovered his sight or his hearing is sure that the blessing could have been restored to him by no other practitioner than that particular one by whom his eyes or ears were opened. Dr. Von Eisenberg is among our best-known aurists. He has not lent us ears as a brother practitioner has eyes, and in whose skill, therefore, we believe above all others. But we hear of him from those who esteem him not merely as a surgeon, but as a benefactor. A recent case has been related to us, for the truthfulness of which we can vouch, though we can name no names. The patient was a lady who had been deaf from infancy, as a consequence of some of the ailments to which children are liable. Latterly the disease had taken an acute form, and the patient was subject to intense suffering. The deafness was rapidly becoming complete, and the general health breaking down under the physical exhaustion attendant upon constant pain. Ordinary remedies and ordinary advice were useless, and Dr. Von Eisenberg was called in. We need not repeat his diagnosis, for that would be only a list of hard names to the general reader. But he detected at sight the seat of disease, first in one portion of the organism, then in another, and with manipulation as skillful as his insight was accurate, he removed the causes, and she who, from infancy, had heard with difficulty, and latterly hardly at all, was restored first to perfect hearing and then to perfect health. Dr. Von Eisenberg's advertisement reminds us of this case, which we thus briefly relate, though not at his solicitation. Let him that hath not ears, hear

SIGHT RESTORED.

CONCERNING EYES AND OCULISTS.

Of the five senses, that which we call seeing is the most important and most valued. In proportion as this sense fails us, we are reduced to helplessness. If entirely destitute of sight, how slow would be our progress in knowledge, and how limited our sphere of action and usefulness. Endowed with it, the universe becomes a new creation, clothed with beauty and diversified by that infinite variety which never fails to attract the mind and heart.

For several months past this has been a practical subject to us. An inflamed condition of the eyelids communicating itself to the pupil, rendered the discharge of daily duties not only painful, but dangerous. Attributing it to the effect of a cold, we endured it through the Spring, with the hope that with the return of warm weather it would entirely disappear. But in this we were doomed to disappointment. Summer returned, but not our wonted sight. What might have been the result, either of further neglect or of incompetent treatment, we cannot say.

Stating our case to a friend, he assured us that a similar one in his own family had recently been treated with entire success by Dr. Von Eisenberg, of this City. Satisfying ourselves by more particular inquiries that the doctor is no empiric, but a scientific oculist and aurist, we concluded to seek the benefits of his treatment, which we have now reason to acknowledge is very great. Though but a few weeks under his care, the appearance of our eyes has totally changed. The pupil is now full and clear, and the lids are entirely free from inflammation. The doctor says that the optic nerve has been weakened and the retina assumed a chronic inflammatory state, affecting more or less all the other tissues, and threatening, if neglected, to end in Amaurosis. Ophthalmitis, is the term we believe, which oculists apply to eyes affected as were ours. Having obtained the much desired relief, we take great pleasure in acknowledging our indebtedness to the talent of Dr. Von Eisenberg, and of calling to it the attention of others who may be suffering from a similar or even worse condition of their eyes. It is said that Providence provides an antidote for every bane. It is certain that the eye is, in these times, subject to severer trials than formerly. Let us be thankful, then, that as we increase the tendencies which destroy the organ of vision, the progress of science keeps pace with these tendencies, if not in advance of them.

SEALED OFFERS will be received at this Department, under the act of Congress, approved June 30, 1864, until the noon of Friday, the 14th instant, for bonds of the United States, to the amount of forty millions of dollars. The bonds offered will bear an interest of six per centum, payable semi-annually, in coin, on the first days of May and November, and will be redeemable at the pleasure of the Government, after five years, and payable twenty years from Nov. 1, 1864.

Each offer must be for fifty or some multiple of fifty dollars, and must state the sum including premium offered for each hundred dollars, or for fifty when the offer is for no more than fifty. Two per cent. of the principal (excluding premium) of the whole amount bid for, by each bidder, must be deposited, as a guaranty for the payment of subscriptions if accepted, with the Treasurer of the United States at Washington, or with the Assistant Treasurer at New York, Boston, Philadelphia or St. Louis, or with the designated Depositary at Baltimore, Pittsburgh, Cincinnati, Louisville, Chicago, Detroit or Buffalo, or with any National Deposit Bank which may consent to transact the business without charge, for which deposits duplicate certificates will be issued to the depositors by the officer or bank receiving them—the originals of which must be forwarded, with the offers, to this Department. All deposits should be made in time for the certificates with the offers to reach Washington not later than the morning of Oct. 14, as aforesaid. No offer, not accompanied by its proper certificate of deposit, will be considered.

The Coupon and Registered Bonds, issued under this proposal, will be of the denominations of $50, $100, $500 and $1,000. Registered Bonds of $5,000 and $10,000 will be issued if required.

All offers received will be opened on Friday, Oct. 14. The awards will be made by the Secretary to the highest offerers, and notice of acceptance or declination will be immediately given to the respective offerers. In cases of acceptance, bonds of the description and denomination preferred will be sent to the subscribers, at the cost of the Department, on final payment of installments. The deposit of two per cent. will be reckoned in the last installments paid by successful offerers, and will be immediately returned to those whose offers may not be accepted.

The amount of accepted offers must be deposited with the Treasurer, officer or bank authorized to act under this notice, on advice of the acceptance of offers, as follows: One-half on the 20th October, and the balance, including the premium and original two per cent. deposit, on the 31st October.

The bonds will bear interest from Nov. 1. Interest on deposits, from their date to Nov. 1, will be paid by the Government in coin.

One-half of the first installment, or twenty-five per cent, of accepted offers, may be paid, with accrued interest to Oct. 14, in United States "Certificates of Indebtedness," but such certificates will be received in part payment of the first installment only.

Offers under this notice should be indorsed "Offer for Loan," and addressed to the Secretary of the Treasury. The right to decline all offers not considered advantageous to the Government is reserved by the Secretary.

COAL LAND.—THE UNDERSIGNED HAS A lease of 2,200 acres of land, on very favorable terms, lying two miles from Petroleum Station, on the Northwestern Virginia Railroad, on which is a splendid vein of coal, six feet clear. Can be brought into market four cents per bushel cheaper than from any other point to this place, which affords a ready market for a large amount. There is a break of one hundred miles each side of Parkersburgh, to the Ohio River, in which no coal can be obtained. A large quantity can be disposed of to steamboats, as well as the markets of Cincinnati and Louisville, and points below, avoiding the most dangerous part of river navigation above. Parties wishing a safe investment, with large returns, need only examine this tract and the market to find as represented. Would dispose of one-half of above lease on reasonable terms to any parties who would aid in developing the same.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY,
NEW-YORK, Sept. 20, 1864.
THE FIRST SERIES OF $2,000,000 Redemption Bonds, bearing 6 per cent. interest, and payable in 1890, have been exchanged for Construction Bonds. The Directors, by resolution this day, have decided to issue another series of $3,000,000, under the same mortgage, upon the road and appurtenances, which are offered at 110 per cent., in exchange for Construction Bonds at 120 per cent., making a difference of 10 per cent. in favor of the Construction Bonds.

This arrangement is proposed in order to relieve the holders of the Construction Bonds from the inconvenience of a peremptory call for the bonds as provided by the terms of their issue, but, in case the bonds are not surrendered and the exchange effected in amounts sufficient to meet the requirements of the land sales, the Company will be compelled to pay off a further portion of the Bonds.

MEDICAL.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 61 Franklin-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and at less expense than any other can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 61 Franklin-st. Call, send, or write.

CAUTION TO MARRIED AND SINGLE LADIES.—DR. A. M. MAURICEAU, Professor of Diseases of Women, deems it his duty to caution ladies, as they value their health, or waste of time and means, to avoid the certain danger of surgical treatment. His scientific mode of treatment in all cases of irregularity or suppression, dispenses with it, and is at once healthy and reliable, and cannot fail. However complicated a case may be, he assures a positive cure. He has been in practice upwards of twenty years at his present office, No. 129 Liberty-st., during which period he has been Sole Agent for the "INFALLIBLE PORTUGUESE FEMALE MONTHLY PILLS," so celebrated as being scientifically prepared, sugar-coated, and pleasant to the taste, that the most delicate lady can take them and at the same time healthy, while they have proved infallible even in the most obstinate cases. Price $3 and $5. Obtainable at his office or sent by mail.

DR. A. M. MAURICEAU is the author of "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION," strictly intended for those whose health and circumstances forbid a too rapid increase of family; a perusal of which will convince any lady of his thorough knowledge of her complaints. Every lady who has it is secure from danger and imposition. Price $1. Sold at No. 1 Vesey-st., No. 18 Ann-st., and at his office, No. 129 Liberty-st., New-York, and at No. 13 Court-st., Boston, Mass.

All should purchase this original work of the publisher, E. WARNER, No. 1 Vesey-st., for $1 50, or consult the doctor, No. 173 Broadway, up-stairs, New-York, from 10 A. M. to 5 P. M. "We concur with other papers in recommending Dr. Larmont and his work."—*Courrier des Etats Unis, German die Reform, Dispatch, Staats Zeitung, Atlas, Medical Review.*

COBBETT can be consulted with the most honorable confidence on private diseases at his conveniently-arranged suite of offices, No. 20 Centre-st., between Chambers and Reade sts., having a private entrance at No. 6 City Hall-place. From Dr. C. being one of the oldest, and probably the only qualified physician and surgeon in this City who makes diseases of the genitourinary organs a specialty, he is thus enabled to guarantee speedy and permanent cures, or make no charge. Strictures of the urethra, seminal weakness nervous and general debility treated on the most scientific principles. N. B.—See Dr. C.'s diplomas, in his office, as member of the New-York University Medical College, and College of Surgeons, London. Office hours, 9 A. M. to 8½ P. M.

MANHOOD AND THE VIGOR OF YOUTH regained in three days by Dr. POWERS' ESSENCE OF LIFE. This wonderful agent restores manhood to the most shattered constitution, radically curing Seminal Weakness, Sexual Debility, and Impediments to marriage generally; Nervousness, Mental and Physical Incapacity, resulting from self-abuse, &c. The time required to cure the most inveterate case is one week. Failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. Young man, are you subject to that soul and body destroying disease, secret habits? Dr. POWERS' Invigorating Essence is a never-failing cure. Sold by WALTER POWERS, M. D., No. 61 Franklin-st., between Broadway and Elm-st., New-York.

A PHYSIOLOGICAL VIEW OF MARRIAGE—Containing nearly 300 pages, and 150 fine plates and engravings of the anatomy of the sexual organs, in a state of health and disease, with a treatise on self-abuse, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent, free of postage, to any address on receipt of 25 cents, in specie or postage-stamps. Address Dr. LA CROIX, No. 31 Maiden-lane, Albany, N. Y.

ADVICE TO MARRIED OR SINGLE LADIES, who require a safe and certain remedy for removing obstructions, from whatever cause. Can rely upon the celebrated INFALLIBLE FRENCH FEMALE MONTHLY PILLS. No. 1, price $1 a box, to restore the monthly sickness in forty-eight hours, if of short standing; but obstinate cases, of long standing, may require No. 2, which are four degrees stronger than No. 1, and can never fail, are safe and healthy, price $5 a box. Sold at No. 127½ Liberty-st., or sent by mail, with full instructions, by addressing Box No. 2,359 N. Y. Post-office.

DR. COOPER, NO. 14 DUANE-ST., MAY BE confidently consulted on all diseases of a private nature. A practice of 30 years, devoted to the treatment and cure of Syphilitic, Mercurial and diseases of a delicate nature, enables Dr. C. to make speedy and permanent cures, no matter of how long standing the case may be. Strictures of the urethra and seminal weakness, brought on by a secret habit, effectually cured. The victims of misplaced confidence, who have been misled by quack advertisements, can call on Dr. C. with the certainty of being radically cured or no charge made.

THOUSANDS ARE DISAPPOINTED OF a cure by not calling on Dr. WEST at first. His remedies are mild and effective in their operations, require no restraint in diet, loss of time or hindrance in business; possessing the power of eradicating every symptom of the disease in the worst stages. One trial will convince the most skeptical of their surprising properties. Slight cases cured in two days, or prevented, if application is made in time. Office, No. 27 Duane-st., between Centre and Chatham.

DR. POWERS' PERIODICAL DROPS are designed for both married and single ladies, and are the very best thing known for the purpose, as they will bring on the monthly sickness in case of obstruction from any cause, and after all other remedies of the kind have been tried in vain. Expressly for obstinate cases. Warranted as represented in every respect, or the price will be refunded. ☞ Beware of imitations! Purchase directly of Dr. POWERS, 61 Franklin-st. N. Y.

DR. WEST, FEMALE PHYSICIAN AND ACCOUCHER, No. 27 Duane-st., between Centre and Chatham, makes it his special practice to treat all female complaints with professional skill. His Monthly Tonic is a never-failing remedy. Relief certain in a few hours.

LADY INVALID!—IF YOU WISH RELIEF, send a red stamp for the Ladies' Private Circular. It tells much you ought to know, exposes quackery, and will save your money—perhaps life.
Dr. THIERS, No. 1,217 Broadway, New-York.

HUNDREDS ARE RUINED BEYOND REDEMPTION in this life by not calling on Dr. HUNTER at first; he has for thirty years confined his attention to diseases of a certain class, in which he has cured no less than fifty thousand cases. His remedies are mild and there is no interruption to business or change of diet. Dr. Hunter is in constant attendance from 8 in the morning till 9 at night, at his old office, No. 3 Division-st., New-York City, since 1834. Charges moderate and a cure guaranteed. Separate rooms, so that the patient sees no one but the Doctor himself. His wonderful medical discovery known as Dr. Hunter's Red Drops, cures certain diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, and possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless this remedy is used. This is what he claims for it, and what no other will accomplish. One dollar will secure by return mail his medical work, 300 pages, 40 colored pictures. Worth all the others put together.

Separate proposals must be made, in duplicate, for each of the articles offered, or for deliveries of the same article at different points, and bidders may propose for the whole or any part of the amount specified.

Contractors are expected to hold their goods without expense to the United States until required for shipment, if so desired by the receiving Commissary.

Certificates of inspection by professional packers or inspectors other than the party furnishing the stores, must be furnished when required; but the meats will also be examined and passed upon by such inspector as may be designated by the Commissary to whom the delivery is made.

Returns of weights, signed by a professional Public Weigher, must be furnished when required.

All old marks, except such as pertain to the contents, must be obliterated, and each package must have distinctly and plainly marked on it the name and address of the seller, the name of the contents, and date of contract, and Bacon packages must also have on them the gross, tare (actual) and net weights.

Payments will be made in such funds as may be furnished by the United States.

ACADEMY OF MUSIC—ITALIAN OPERA.
Director........MAX MARETZEK
DECIDED AND LEGITIMATE SUCCESS
OF
GARROZZI-ZUCCHI
AND
MASSIMILIANI.
OPINIONS OF THE PRESS.

"A finer company of singers than that now at our Academy of Music can be found in but few of the opera houses of the Old World, and with this company our musical public may anticipate a series of the most artistic lyric representations."—*New-York Herald.*

"To the evident surprise of the audience, Signora Carozzi Zucchi and Signor Massimiliani displayed voices of the very first order, and, together with Miss Morensi and Signor Bellini, contributed to form the most powerful and effective ensemble that has ever been heard in the 'Trovatore' in New-York.

We must honestly rate Massimiliani as the peer of Salvi, of whom all opera-goers probably have the liveliest recollections."—*World.*

Signorina Zucchi may be recorded, then, as an emphatic success. The new tenor, Massimiliani, brought down the house with a tumult of applause. As Signor Massimiliani as called out three times after the fall of the curtain, it may safely be recorded that his debut was also a success.—*Times.*

STEINWAY & SON
GOLD MEDAL GRAND AND SQUARE PIANOS are now considered the best in Europe as well as this country, having received the first Prize Medal at the World's Exhibition in London, 1862.

The principal reason why the Steinway Pianos are superior to all others, is, that the firm is composed of five practical pianoforte makers, (father and four sons,) who invent all their own improvements, and under whose personal supervision every part of the instrument is manufactured. Warerooms, Nos. 71 and 73 East 14th-st., between Union-square and Irving-place, New-York.

THE WEBER PIANO-FORTE

Such is the testimony of S. B. Mills, Robert Heller, Geo. F. Bristow, Wm. Mason, C. Jerome Hopkins, Charles Fradel, Max Maretzek, Carl Anschutz, John Zundle, Maurice Strakosch, Giovani Sconcia, and every good musician in the United States. Increase in 87 day	$163,106,676	$8,353,403
Average daily increase of Principal		$1,864,525
Average rate of Interest per annum		4.59 ℔ cent.

*In Gold $54,608,446; in Currency, $27,170,197.

During the month of September the Department paid off all the arrearages due to the Army in the field and to the Navy in active service, and reduced all their unpaid requisitions, for other service, within ten millions of the cash balances in the Treasury. The net reduction in the suspended requisitions, of all sorts, since the 30th August, is from $61,605,481 down to $10,281,948. The increase in the 6 ℔ cent. compound interest

Notes is	$56,440,000
Decrease in 5 ℔ cent. Notes	13,111,172
Net increase of Interest Notes	$43,328,828

The subscriptions to the Popular 7-30 ℔ cent Loan stood on

30th August	$25,876,550
30th September	55,897,600
Increase $1,000,000 ℔ day, or	$30,021,050

The price of Gold fell back 1½ @ 2 ℔ cent from the sales of yesterday, to-day, and at 3 o'clock, stood 190¼@190½ ℔ cent. Exchange on London, 108½@108¾ ℔ cent for Gold. The demand for Bills on the regular Bankers for the CUNARD steamer to-morrow is of a moderate character. Some of the leading Dry Goods Importers are endeavoring to press their stocks through the Auction Rooms, the sales to Jobbers from stores being greatly embarrassed by the recent fall in Gold and the caution of buyers for the later Fall and Winter trade. There is, if anything, still greater reluctance, combined with economy, on the part of the public at large, as consumers, in buying by retail. The Importers of Sugar, Coffee, Teas, &c., encounter the same drawbacks to anything like an active business, as compared with last season,

The immediate condition of the Money Market is one of comparative ease to Brokers, who borrow at call, and to the Treasury Department advertising for Money on the Popular 7-30 per cent. Loan. But mercantile paper goes with difficulty in the open market at 9@12 ℔ cent., and is closely scrutinized at Bank when taken in the ordinary course from dealers at 7 per cent.

There was a fresh outburst of panic feeling on the Railway and Miscellaneous Share list at the Stock Exchange this afternoon, and prices, both at and after the Second Board, were depressed and below the cheapest points yet made on the New-York or Western lines. The pressure to sell extended to Scranton, Cumberland Coal, &c., and the amount of business done at the extreme decline is larger than last week, when the prices for Erie, Michigan Southern, &c., first gave evidences of a panic fall.

In Government Stocks there was more steadiness in the 5-20 bonds, but a further yielding in the rates for the 6 per cent. stock of 1881 and the old 7-30 per cents convertible into this stock.

At 4 o'clock there was no abatement in the eagerness to press the railways at the lowest prices, and the inquiry for news on the Street, to account for the panic, was quite general, but remained unanswered. Nothing transpired of a military nature to change the ruling in the Gold Room, and no signs of a financial character pointing to the latter end of all Railway values. The following quotations were made, as compared with the same hour yesterday:

	Mon.	Tues.		Mon.	Tues.
U. S. 6s, 1881	105⅜	104⅞	Mich. Southern	66¾	59⅜

The City Bank Stocks are neglected at the Board of Brokers. The following bids were made to-day:

There is also a dull feeling in the Railway Mortgages, which begin to sympathise with the great decline in the Dividend-paying Shares of the same Roads.

The Illinois Central Company received in September:

From traffic of their road	$767,000
Cash on sales of lands	305,000
Together	$1,072,000

This is, by far, the heaviest receipts, in a single month, ever reported. The Company are now paying off $3,000,000 of the original Land Mortgage Bonds, numbers 1 to 3,000 of $1,000 each, at the rate of 120 ℔ cent. The road traffic in September of last year was very large ($478,576,) bu is exceeded this season by nearly $300,000.

The traffic of the Chicago and Rock Island Road was in

September, 1864	$307,000
September, 1863	160,000
Increase	$147,000

We have received complaints through several parties, of the difficulty of obtaining information, for shareholders, of the actual condition of the City Avenue Railways. The Second and Sixth-avenue Corporations are specially named as derelict in publishing or otherwise affording to the Stockholders a statement of the earnings, expenses, debt, &c., of their respective lines. On inquiry of the Treasurer in Wall-street, who is not only the financial representative of the Second-avenue Road, but largely interested as a Shareholder, we learn that the books of the concern are always open to examination, and if any other means of information to Shareholders has been withheld at the up-town office, he is ignorant of the circumstance, as he certainly is of any occasion for such reticence.

The Shoe and Leather Bank have declared their Semi-Annual Dividend of 4 per cent., free from Government tax, payable on the 10th inst.

The day's business at the office of the Assistant Treasurer of the United States, New-York, was as follows: Receipts, $11,974,898, including for Customs, $109,000; on account Loan, $97,000; payments, $12,949,632; balance, $21,552,249.

DANNVILLE, Penn., June 2, 1862.

Dr. WM. H. GREGG—*Dear Sir:* In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and after taking two bottles I was entirely cured, soon after regaining my usual good health. Yours, truly,
J. V. L. DEWITT.

UNITED PETROLEUM
FARMS ASSOCIATION.

These farms and interests consist of about 1,200 acres of oil lands in *fee*, in Pennsylvania, and also two leasehold interests, most of which are situated immediately upon Oil Creek and the Alleghany River.

They combine, as we think, much the largest oil enterprise that has ever been offered to the public. There are now some fifteen wells producing, and about the same number going down.

The present production to this interest is about 160 to 200 barrels per day, which, at $11 per barrel for 160 barrels, is $1,760, or $642,400 per year.

The entire property costs $2,275,000, and the present production is paying *about two and a half per cent.* per month on that amount, *or nearly 30 per cent.* per annum; and with ordinary success, the wells that are now in process of being bored (which wells will, no doubt, be producing within the next 30 to 90 days,) will double the amount of product, and perhaps increase it tenfold, or more. There is room on these farms to bore at least 2,000 wells, and the amount of oil that may be produced upon them is almost beyond calculation. It is a fact well known to oil shippers that more than seven-tenths of the people of Europe, as yet, have never used petroleum, for the reason that not enough of it has been produced to furnish them. And again, it is true that our Southern people have not been favored with it, which makes it very evident that there is no danger of obtaining an over abundance of it. It has already become one of the leading staples of trade, though it is only in its infancy. We propose to put this property into at least three companies, with a capital of not less than $5,000,000 each, or $15,000,000 for the whole; and we confidently believe we can make these farms pay one per cent. per month on $15,000,000 within the next twelve months.

It will be seen, that the parties purchasing upon the subscription basis, at $2,275,000, get upon the stock basis over six dollars for one; and as soon as we can make the production pay one per cent. a month, the stock will readily be worth par. Some wealthy influential gentlemen of this City have personally been to Oil Creek to examine these particular farms and interests, and we are pleased to say, they are among the leading subscribers to this purchase. We believe all who have returned express themselves highly gratified, and many of them voluntarily say, they regard one of the farms worth more than is being paid for the whole.

We most unequivocally recommend this enterprise to all our friends.

The maps and schedules to all the property are at our office, where we shall be pleased to show them to all who may desire to call, and will cheerfully give any and all other information relative to this property.—NEW-YORK, Sept. 5, 1864. WED. W. CLARKE & CO.,

CONSTITUTION
LIFE SYRUP.
COMPOSED OF
IODIDE POTASSIUM,
with the Compound Concentrated Fluid Extract of
VALUABLE MEDICINAL
ROOTS AND HERBS,
PREPARED BY WM. H. GREGG, M. D.,
Graduate College of Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New-York State Volunteer Depots, under Gov. Edwin D. Morgan.

CONSTITUTION LIFE SYRUP
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable, are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal-minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar; by it the seat of any disease is directly reached, and the equilibrium restored.

Those who have suffered long from painful and obstinate diseases,

Those who have vainly sought relief from advertised medicines,

Those who cannot be cured by other physicians—
ARE INVITED TO USE CONSTITUTION LIFE SYRUP.

During the past five years we have contended with obstacles and overcome opposition as herculean as were ever encountered by any reformers.

RAPIDITY OF CURE.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature."

This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,
a positive and specific remedy for all diseases originally from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

PARALYSIS.
HEMIPLEGIA. PARESIS. PARAPLEGIA. PARALYSIS AGITANS.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-giving Power.

DYSPEPSIA.
INDIGESTION. LIVER COMPLAINT. CONSTIPATION.
WEIGHT AT STOMACH. BILIOUSNESS. WANT OF APPETITE.
FLATULENCE. BAD BREATH.

SCROFULA.
STRUMA, GLANDULAR SWELLINGS, ULCERATION,
KING'S EVIL, ERYSIPELAS, SALT RHEUM.
This taint (HEREDITARY and ACQUIRED), filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.
[ARTHRITIS.] NEURALGIA, TIC DOULOUREUX.
LUMBAGO. SCIATICA. GOUT.
If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years' standing, have been cured by us.

NERVOUSNESS.
NERVOUS DEBILITY, SHATTERED NERVES,
LOSS OF POWER. CONFUSION OF THOUGHTS.
ST. VITUS' DANCE. EPILEPSY.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfills more than it promises.

MERCURIAL DISEASES.
SALIVATION. ROTTING OF BONES.
BAD COMPLEXION. ACHES IN BONES.
FEELING OF WEARINESS. DEPRESSION OF SPIRITS.
CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP
eradicates, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES,
and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP
CURES ALL SWELLING OF THE GLANDS,
either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking, and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen, and in the female, Dropsy of the ovaries and womb, generally accompanied with Inflammation and Ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, as palpitation, Disease of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ, (persons suffering from any acute pain in this region of the heart) will be greatly relieved by Constitution Life Syrup.

BROKEN-DOWN AND DELICATE CONSTITUTIONS, SUFFERING FROM INDISPOSITION TO EXERTION, PAIN IN THE BACK, LOSS OF MEMORY, FOREBODINGS, HORROR OF CALAMITY, FEAR OF DISEASE, DIMNESS OF VISION, DRY, HOT SKIN AND EXTREMITIES, WANT OF SLEEP, RESTLESSNESS, PALE, HAGGARD COUNTENANCE, AND LASSITUDE OF THE MUSCULAR SYSTEM, all require the aid of the CONSTITUTION LIFE SYRUP.

FOR ALL FORMS OF
ULCERATIVE DISEASES,
either of the NOSE, THROAT, TONGUE, SPINE, FOREHEAD OR SCALP, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit, which is directly under the skin.

In Diseases of the Liver, giving rise to Languor, Dizziness, Indigestion, Weak Stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of CONSTITUTION LIFE SYRUP.

☞ AS A GENERAL BLOOD-PURIFYING AGENT, THE LIFE SYRUP STANDS UNRIVALED BY ANY PREPARATION IN THE WORLD.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all nervous diseases, and ladies who are suffering from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR
are liable to the same diseases. Nature and science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD
produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system, and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food. Those who have used it think it indispensable. It is highly useful, both before and after confinement, as it prevents disease attendant upon childbirth.

CONSTITUTION LIFE SYRUP
is the poor man's friend and the rich man's blessing.
Buy it, take it, and be cured.
IT IS UNIVERSAL IN ITS EFFECTS.
